# 5. Transition of Significant Management Indicators, etc.

## Japan Post Group (Consolidated)

(Millions of yen)

	As of and for the fiscal year ended				
	March 31, 2014	March 31, 2015	March 31, 2016	March 31, 2017	March 31, 2018
Total income	15,241,937	14,268,281	14,272,742	13,336,802	13,012,517
Income before income taxes	740,466	780,319	670,943	170,887	709,134
Net income (loss)	479,071	482,682	425,972	(28,976)	460,623
Comprehensive income (loss)	717,123	2,212,035	(177,994)	8,867	118,564
Net assets	13,388,650	15,301,561	15,176,088	14,954,581	14,743,234
Total assets	292,246,440	295,849,794	291,947,080	293,162,545	290,640,154
Consolidated capital adequacy ratio (domestic standard)	49.23%	40.40%	27.47%	23.80%	19.11%
Consolidated solvency margin ratio	1,791.8%	1,621.1%	1,087.4%	922.0%	722.7%

#### Notes:

- 1. The amount of net income (loss) attributable to Japan Post Holdings Co. has been used for net income (loss) of Japan Post Group (Consolidated).
- 2. The consolidated capital adequacy ratio (domestic standard) has been calculated in line with provisions of Article 52-25 of the Banking Act and on the basis of criteria for judging whether a bank holding company's capital adequacy ratio and that of its subsidiaries are appropriate in light of assets held (Financial Services Agency Notice No. 20, 2006).
- 3. The consolidated solvency margin ratio has been calculated in accordance with Articles 210-11-3 and 210-11-4 of the Ordinance for Enforcement of the Insurance Business Act and Notification No. 23 issued by the Financial Services Agency in 2011.

Total assets	_	_	5,651,387	5,091,375	5,099,405

#### Notes:

- 1. Because figures have been listed on a consolidated basis from the fiscal year ended March 31, 2016, figures for the fiscal year ended March 31, 2015 and prior years, when non-consolidated figures had been listed, are expressed with the symbol [-] (same for each segment).
- 2. The method of presentation has been changed for Japan Post Co. from the fiscal year ended March 31, 2017, whereby rental transactions of post offices, etc., which had previously been included in other income and other expenses, are included in operating income, operating costs and sales, general and administrative costs. Accordingly, figures for the fiscal year ended March 31, 2016 have been reclassified to reflect this change in presentation.
- 3. The amount of net income (loss) attributable to Japan Post Co. has been used for net income (loss) of Japan Post Co. (Consolidated).

## [Postal and domestic logistics business segment (Consolidated)]

(Millions of yen)

	For the fiscal year ended   March 31, 2014   March 31, 2015   March 31, 2016   March 31, 2017   March 31, 2018

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS YEARS ENDED MARCH 31, 2018 AND 2017

#### 1. BASIS OF PRESENTATION

The accompanying consolidated financial statements of Japan Post Holdings Co., Ltd. (the "Company"), have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act and its related accounting regulations concerning preparation of consolidated financial statements, Ordinance for Enforcement of the Banking Law, Ordinance for Enforcement of Insurance Business Act and in accordance with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards ("IEPS")

The accounts of overseas subsidiaries and affiliates, are, in principle, integrated with those of the Company's accounting policies for purposes of consolidation unless they apply different accounting principles and standards as required under U.S. GAAP or IFRS, in which case a certain limited number of items are adjusted based on materiality.

In preparing these consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan.

All Japanese yen figures in the consolidated financial statements have been rounded down to the nearest million yen, except for per share information. Accordingly, the total of each account may not be equal to the combined total of individual items.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which the Company is incorporated and mainly operates. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥106.24 to U.S. \$1, the approximate rate of exchange as of March 31, 2018. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

- (1) Consolidation and Equity Method
- 1) Scope of consolidation

Under Japanese GAAP, a company is required to consolidate any subsidiary when the company substantially controls the operations of the subsidiary, even if it is not majority-owned. Control is defined as the power to govern the decision-making body of an enterprise. The consolidated financial statements as of and for the fiscal years ended March 31, 2018 and 2017 include the accounts of the Company and its significant subsidiaries (collectively, the "Group").

A) Consolidated subsidiaries

The Company has 264 (274 in 2017) consolidated subsidiaries. Principal consolidated subsidiaries are Japan Post Co., Ltd., Japan Post Bank Co., Ltd., and Japan Post Insurance Co., Ltd.

During the fiscal year ended March 31, 2018, Japan Post Capital Co., Ltd., Japan Post Investment Corporation and other 1 subsidiary were included in the scope of consolidation due to the establishment of these companies. Tokyo Beiyu Co., Ltd., which was a non-consolidated subsidiary, was included in the scope of consolidation due to an increase in its materiality. 1 affiliate of Toll Holdings Limited (hereinafter referred to as "Toll") was included in the scope of consolidation due to becoming a subsidiary by additional purchases of its stock. 15 subsidiaries of Toll were excluded from the scope of consolidation due to the liquidation.

During the fiscal year ended March 31, 2017, Japan Post Maintenance Co., Ltd., which was a non-consolidated subsidiary, was included in the scope of consolidation due to an increase in its materiality because of the merger with Nippan Co., Ltd. and Universal Technics Co., Ltd., which were non-consolidated subsidiaries. Japan Post Finance Co., Ltd. and 3 subsidiaries of Toll were excluded from the scope of consolidation due to the sale of their stocks and the other 13 subsidiaries of Toll were excluded from the scope of consolidation due to the liquidation.

B) Non-consolidated subsidiaries

The Company has 1 (1 in 2017) non-consolidated subsidiary, namely, a silent partnership investing in real estate for the fiscal year ended March 31, 2018 and Tokyo Beiyu Co., Ltd. for the fiscal year ended March 31, 2017, respectively.

The non-consolidated subsidiaries are excluded from the scope of consolidation because their assets, income, net income (loss) (amount corresponding to the Group's equity position), retained earnings

(amount corresponding to the Group's equity position), accumulated other comprehensive income (amount corresponding to the Group's equity position) and others are immaterial, and the exclusion of these companies from the scope of consolidation does not hinder a reasonable understanding of the Group's financial position and results of operations.

- 2) Application of the equity method
- A) Non-consolidated subsidiaries accounted for by the equity method There were no non-consolidated subsidiaries accounted for by the equity method for all periods presented.
- B) Affiliates accounted for by the equity method

The Company has 22 (24 in 2017) affiliates accounted for by the equity method, namely, JA Foods Oita Co., Ltd., Ring Bell Co., Ltd., Saison Asset Management Co., Ltd., SDP Center Co., Ltd., ATM Japan Business Service, Ltd., JP Asset Management Co., Ltd. and Toll's affiliates for all periods presented.

During the fiscal year ended March 31, 2018, 1 of Toll's affiliates was excluded from the scope of the equity method due to becoming a subsidiary by additional purchases of its stock and another 1 of Toll's affiliates was excluded from the scope of the equity method due to the sale of its stock.

During the fiscal year ended March 31, 2017, 1 of Toll's affiliates was included in the scope of the equity method due to the acquisition of its stock. 1 of Toll's affiliates was excluded from the scope of the equity method due to the sale of its stock.

 Non-consolidated subsidiaries that are not accounted for by the equity method

The Company has 1 (1 in 2017) non-consolidated subsidiary that is not accounted for by the equity method, namely, a silent partnership investing in real estate for the fiscal year ended March 31, 2018 and Tokyo Beiyu Co., Ltd. for the fiscal year ended March 31, 2017, respectively.

D) Affiliates that are not accounted for by the equity method

The Company has 1 affiliate that is not accounted for by the equity method, namely, BPO.MP COMPANY LIMITED for the fiscal year ended March 31, 2018. There were no such affiliates for the fiscal year ended March 31, 2017.

The non-consolidated subsidiaries and affiliates that are not accounted for by the equity method are excluded from the scope of the equity method because their net income (loss) (amount corresponding to the Group's equity position), retained earnings (amount corresponding to the Group's equity position), accumulated other comprehensive income (amount corresponding to the Group's equity position) and others are immaterial, and the exclusion of these companies from the scope of companies accounted for by the equity method does not materially affect the consolidated financial statements.

3) Fiscal year-end dates of consolidated subsidiaries

A) The fiscal year-end dates of consolidated subsidiaries are as follows:

Years ended March 31	2018	2017
June 30	4 companies	5 companies
December 31	29 companies	35 companies
March 31	231 companies	234 companies

B) For the fiscal year ended March 31, 2018, 28 consolidated subsidiaries with a fiscal year-end date of December 31 and consolidated subsidiaries with a fiscal year-end date of June 30 are consolidated using the preliminary financial statements as of March 31. For the other 1 consolidated subsidiary with a fiscal year-end date of December 31, there was no closing date during the period between the establishment date and the consolidated fiscal year-end date of March 31, 2018. Accordingly, only its balance sheet as of the establishment date was consolidated.

Appropriate adjustments were made for material transactions during the period between the establishment date and the consolidated fiscal year-end date.

For the fiscal year ended March 31, 2017, consolidated subsidiaries with a fiscal year-end date of June 30 and December 31 are consolidated using the preliminary financial statements as of March 31.

(2) Trading Account Securities

Trading account securities are carried at fair value.

#### (3) Securities

Held-to-maturity bonds are carried at amortized cost and the cost of these securities sold is calculated using the moving-average method. Amortization is calculated using the straight-line method.

In accordance with "Temporary Treatment of Accounting and Auditing Concerning Policy-reserve-matching Bonds in the Insurance Industry" (Japanese Institute of Certified Public Accountants ("JICPA") Industry Audit Committee Report No. 21), policy-reserve-matching bonds are carried at amortized cost and the cost of these securities sold is calculated using the moving-average method. Amortization is calculated using the straight-line method.

Investments in non-consolidated subsidiaries and affiliates that are not accounted for by the equity method are carried at cost and the cost of these securities sold is calculated using the moving-average method.

Available-for-sale securities are, in principle, carried at average market prices during the final month of the fiscal year for stocks, and at market prices at the fiscal year end for others. Cost of securities sold is calculated using mainly the moving-average method. Available-for-sale securities which are deemed to be extremely difficult to determine fair value are carried at cost using the moving-average method or amortized cost (the straight-line method). Net unrealized gains (losses) on available-for-sale securities (including net unrealized gains (losses) arising from fluctuations in foreign exchange, but excluding cases where the fair value hedge accounting method is applied to hedge exposure to the risks of foreign exchange fluctuations), net of income taxes, are included in "Net assets".

Securities included in "Money Held in Trust Classified as Trading" are carried at fair value and the cost of these securities sold is calculated using mainly the moving-average method. In addition, securities included in "Money Held in Trust Classified as Other than Trading or Held-to-Maturity" are carried using the same method used for securities mentioned above. Net unrealized gains (losses) on money held in trust classified as other than trading or held-to-maturity, net of income taxes, are included in "Net assets".

- (4) Derivative Transactions
  - All derivative transactions are valued at fair value.
- (5) Hedge Accounting
- 1) Hedge accounting for interest rate risks

The Company and its consolidated subsidiaries mainly apply the deferred hedge method for hedges of interest rate risk arising from the financial assets and liabilities.

The evaluation of hedge effectiveness is omitted because the Company and its consolidated subsidiaries designate the hedges in such a way that the major terms of the hedged items and the hedging instruments satisfy almost same conditions as those required for the exceptional treatment for interest rate swaps and accordingly assume that the hedges are highly effective. In addition, the Company and its consolidated subsidiaries apply the exceptional treatment for interest rate swaps to hedge the interest rate risk arising from certain financial assets and liabilities.

As for portfolio hedges on groups of large-volume, small-value monetary debts, the banking subsidiary applies the deferred hedge method as stipulated in "Treatment of Accounting and Auditing of Application of Accounting Standard for Financial Instruments in the Banking Industry" (IICPA Industry Audit Committee Report No. 24). To evaluate the hedge effectiveness, the banking subsidiary designates deposits as hedged items and interest rate swaps and others as hedging instruments and assesses how the hedging instruments offset changes in the fair value of hedged items by grouping them based on their maturities.

2) Hedge accounting for foreign exchange risks

The Company and its consolidated subsidiaries apply the deferred hedge method, the fair value hedge method or the allocation method translating the foreign currency receivables at forward rates for hedges of foreign exchange fluctuation risk arising from the securities denominated in foreign currencies.

The Company and its consolidated subsidiaries apply portfolio hedges on the conditions that the hedged securities denominated in foreign currencies are designated in advance and that sufficient on-balance (actual) or off-balance (forward) liability exposure exists to cover the acquisition cost of the hedged securities denominated in the same foreign currencies.

The evaluation of hedge effectiveness for individual hedges is omitted because the Company and its consolidated subsidiaries designate the hedges in such a way that the major terms of the hedged items and the hedging instruments are almost same and accordingly assume that the hedges are highly effective.

- (6) Depreciation
- Tangible fixed assets (excluding leased assets)
   Depreciation of tangible fixed assets is computed using the straight-

Useful lives of principal assets are as follows:

Buildings: 2-50 years

Others: 2-75 years

2) Intangible assets (excluding leased assets)

Amortization of intangible assets is computed using the straight-line method. The capitalized development costs of software intended for internal use are amortized over the expected useful lives (mainly 5 years) determined by the Company and its consolidated subsidiaries, and trademark rights are amortized over a period determined in accordance with their causes of occurrence (mainly 20 years).

3) Leased assets

Leased assets under finance lease arrangements that transfer the ownership of leased property to the lessee are depreciated using the same method applied to company-owned tangible assets. These leased assets are mainly buildings included in "Tangible fixed assets".

Leased assets under finance lease arrangements that do not transfer the ownership of leased property to the lessee are depreciated to the residual value of zero or guaranteed value using the straight-line method over the lease term. These leased assets are mainly personal properties included in "Tangible fixed assets" and software included in "Intangible assets".

(7) Amortization of Goodwill

Goodwill is amortized for a period up to 20 years depending on the causes of occurrence using the straight-line method. Goodwill deemed immaterial, however, is expensed as incurred.

- (8) Reserve for Possible Loan Losses
- 1) For reserve for possible loan losses of the Company and its consolidated subsidiaries other than the banking subsidiary and insurance subsidiary, an allowance is provided for loans other than specific loans using a rate determined based on past bad debt experience. In addition, an allowance is provided for specific loans such as loans to bankrupt or effectively/substantially bankrupt borrowers at the estimated amount considered uncollectible based on review of the respective nature of loans.
- Reserve for possible loan losses of the banking subsidiary is provided for in accordance with the write-off and provision standards as described below:

In accordance with "Practical Guidance for Checking Internal Controls for Self-Assessments of Assets by Banks and Other Financial Institutions and for Audits of Loans Written Off and Loan Loss Allowance Provisions" JICPA, Special Committee for Audits of Banks, etc., Report No. 4), loans to normal borrowers and borrowers requiring caution are classified into certain groups, and an allowance is provided for each group based on the estimated rate of loan losses.

For loans to doubtful borrowers, an allowance is provided for based on the amount of loans net of amounts expected to be collected through disposal of collateral or through execution of guarantees and considered to be necessary based on a solvency assessment. For loans to bankrupt or substantially bankrupt borrowers, an allowance is provided in the amount of loans, net of amounts expected to be collected through disposal of collateral or to be recoverable under guarantees.

All loans are assessed initially by the marketing and other departments based on internal rules for self-assessment of asset quality. The asset evaluation department, which is independent from the marketing and other departments, reviews these self-assessments.

3) Reserve for possible loan losses of the insurance subsidiary is provided pursuant to its standards for self-assessment of asset quality and its write-off and provision standards, and a general allowance is provided using a rate determined by past bad debt experience. In addition, a specific allowance, which is determined after reviewing individual collectability of accounts, is recorded.

All loans and claims are assessed initially by the relevant departments based on internal rules for self-assessment of asset quality. The asset evaluation department, which is independent from the relevant departments, reviews these self-assessments. The above allowances are recorded based on the results of these assessment.

For secured loans and guaranteed loans that were extended to borrowers in a state of legal bankruptcy, including legal bankrupt or civil rehabilitation, or that are considered substantially bankrupt, respective loan receivable amounts are directly written off for an estimated uncollectable amount, which is calculated as the amount of loans, net of collateral value or the amounts expected to be recoverable under guarantees. The amount written off for these loans

was ¥65 million (\$1 million) and ¥214 million for the fiscal years ended March 31, 2018 and 2017, respectively.

(9) Policy Reserves

Policy reserves are reserves provided in accordance with Article 116 of the Insurance Business Act. Insurance premium reserves are recognized based on the following methodology:

- Reserves for contracts subject to the standard policy reserves are calculated in accordance with the method prescribed by the Commissioner for Financial Services Agency (Ordinance No. 48 issued by the Ministry of Finance in 1996).
- Reserves for the other contracts are calculated based on the net level premium method.

Pursuant to Article 69, Paragraph 5 of the Ordinance for Enforcement of the Insurance Business Act, effective from the fiscal year ended March 31, 2011, additional policy reserves are accumulated, in preparation for future performance of obligations, over a 10-year period for a portion of reinsurance contracts from the Management Organization for Postal Savings and Postal Life Insurance (hereinafter referred to as the "Management Organization"), which is an independent administrative institution. As a result, the amounts of provision for additional policy reserves were ¥180,903 million (\$1,703 million) and ¥180,359 million for the fiscal years ended March 31, 2018 and 2017, respectively.

In addition, pursuant to Article 69, Paragraph 5 of the Ordinance for Enforcement of the Insurance Business Act, additional policy reserves are accumulated, in preparation for future performance of obligations, for lump-sum payment annuities for the fiscal year ended March 31, 2018. As a result, the amount of provision for additional policy reserves for the fiscal year ended March 31, 2018 was ¥17,025 million (\$160 million). Income before income taxes decreased by the same amount compared with the case where the accumulation was not made.

The Management Organization was established in October 2007 to support the privatization of Japan Post Group by succeeding from the former Japan Post Corporation's Postal Savings such as fixed amount or term postal savings deposited by and Postal Life Insurance Contracts concluded by September 2007 to ensure that such Postal Savings and Postal Life Insurance Contracts are managed appropriately and to fulfill the relevant liabilities without fail.

The insurance subsidiary has entered into reinsurance contracts comprising outsourcing agreements for the administrative operation of the Postal Life Insurance and reinsurance contracts for insurance liabilities based on former Postal Life Insurance Contracts, for Postal Life Insurance Contracts concluded by September 2007 that have been assumed by the Management Organization.

In addition, based on the master plan by the Postal Service Privatization Act, with respect to the amount equivalent to that lent to policyholders of the Postal Life Insurance Contracts and to Japanese local governments and others succeeded from the former Japan Post Corporation, the insurance subsidiary has lent loans to the Management Organization under the same loan conditions as those of the contracts between the former Japan Post Corporation and its counterparties.

#### (10) Reserve for Bonuses

A reserve for the employee bonus payments is provided based on the amount expected to be incurred at the end of the fiscal year based on the projected obligations as of the end of the fiscal year.

(11) Reserve for employee stock ownership plan trust

For a certain consolidated subsidiary, to provide for the payment of the consolidated subsidiary's shares to its employees that are determined based on the rule set by the consolidated subsidiary, a reserve is provided based on the estimated amount of stock benefit obligations at the end of the fiscal year.

(12) Reserve for management board benefit trust

For the Company and its certain consolidated subsidiaries, to provide for the payment of the Company's shares, etc. to Executive Officers and other management that are determined based on the rules set by each company, a reserve is provided based on the estimated amount of stock benefit obligations at the end of the fiscal year.

(13) Reserve for reimbursement of deposits

To provide for requests for refunds by depositors with regard to deposits that are no longer recorded as liabilities, a reserve is provided based on the estimated amount of losses to be incurred in accordance with future requests for refunds.

#### (14) Retirement Benefits

 In calculating the projected benefit obligation, the benefit formula basis is used to attribute the expected benefit to respective service period. Treatment of prior service cost and actuarial difference are accounted for as follows. Prior service cost is amortized using the straight-line method over a fixed period (7-14 years for the fiscal year ended March 31, 2018 and 8-14 years for the fiscal year ended March 31, 2017) within the estimated average remaining service period for employees as incurred from the fiscal year in which the difference is incurred.

Actuarial difference is amortized based on a proportional amount using the straight-line method over a fixed period (7-14 years for the fiscal year ended March 31, 2018 and 8-14 years for the fiscal year ended March 31, 2017) within the estimated average remaining service period for employees as incurred from the fiscal year following the respective fiscal year in which the difference is incurred.

2) Charges for the pension program of national public service personnel associated with pension benefits for the service period until December 1958 for those personnel who had worked in postal services for the former Ministry of Communications and the former Ministry of Posts and Telecommunications and retired after January 1959 (hereinafter referred to as "share of public service pension") are recognized as part of "Asset for retirement benefits". The Company has established retirement benefit trusts for the above pension program.

The actuarial difference is amortized using the straight-line method over a fixed period (9 years for the fiscal year ended March 31, 2018 and 10 years for the fiscal year ended March 31, 2017) within the estimated average remaining payment periods for eligible personnel as incurred from the fiscal year following the respective fiscal year in which the difference is incurred.

The prior service cost is amortized using the straight-line method over a fixed period (9 years for the fiscal year ended March 31, 2018 and 10 years for the fiscal year ended March 31, 2017) within the estimated average remaining payment periods for eligible personnel as incurred from the fiscal year in which the difference is incurred.

3) Charges for the pension program of national public service personnel associated with pension benefits for those personnel who had worked in postal services for the former Ministry of Communications and the former Ministry of Posts and Telecommunications and retired by December 1958 (hereinafter referred to as "share of another public service pension") are recognized as part of "Liability for retirement benefits". The Company has established retirement benefit trusts for the above mutual aid pension program.

The actuarial difference is amortized using the straight-line method over a fixed period (5 years) within the estimated average remaining payment periods for eligible personnel as incurred from the fiscal year following the respective fiscal year in which the difference is incurred.

(15) Translation of Assets and Liabilities Denominated in Foreign Currencies into Japanese Yen

Assets and liabilities denominated in foreign currencies are mainly translated into Japanese yen at the exchange rates prevailing at the fiscal year-end.

(16) Reserve for Price Fluctuations

Reserve for price fluctuations is computed based on Article 115 of the Insurance Business Act.

(17) Statement of Cash Flows

Cash and cash equivalents consists of cash on hand, deposits that can be withdrawn at any time, short-term investments with a maturity of three months or less when purchased which can easily be converted to cash and are subject to little risk of change in value (excluding negotiable certificates of deposit held by the banking subsidiary included in "Cash and due from banks") and bank overdrafts treated equally as cash equivalents in fund management (negative cash equivalents).

(18) Consumption Taxes

All figures are net of consumption taxes.

(19) Consolidated Tax Payment System

The Company and certain consolidated subsidiaries adopt the consolidated tax payment system, under which Japan Post Holdings Co., Ltd. is the parent company.

(20) New Accounting Pronouncements

"Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, March 30, 2018) and "Implementation Guidance on Accounting Standard for Revenue Recognition" (ASBJ Guidance No. 30, March 30, 2018)

1. Overview

The above standard and guidance provide comprehensive principles for revenue recognition. Under the standard and guidance, revenue is recognized by applying following 5 steps:

Step 1: Identify contract(s) with customers.

Step 2: Identify the performance obligations in the contract.

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price to the performance obligation in the contract.

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

#### 2. Effective date

Effective from the beginning of the fiscal year ending March 31, 2022.

#### 3. Effects of the application of the standards

The Company and its consolidated domestic subsidiaries are currently in the process of determining the effects of these new standards on the consolidated financial statements.

#### (21) Changes in Accounting Estimates

The Company has changed the amortization period of actuarial difference and prior service cost concerning retirement benefits for employees from 8 years to 7 years due to the decrease in the estimated average remaining service period for employees from the fiscal year ended March 31, 2018.

As a result, expenses decreased by ¥341 million (\$3 million) while income before income taxes increased by the same amount for the fiscal year ended March 31, 2018.

In addition, the Company has changed the amortization period of actuarial difference and prior service cost concerning share of public service pension from 10 years to 9 years due to the decrease in the estimated average remaining payment period for eligible personnel from the fiscal year ended March 31, 2018.

As a result, expenses decreased by  $\pm 6.187$  million (\$58 million) while income before income taxes increased by the same amount for the fiscal year ended March 31, 2018.

#### (22) Additional Information

For the fiscal years ended March 31, 2018 and 2017

Transactions granting the Company's shares, etc. through a trust to Executive Officers and other management of the Group

The Company and Japan Post Co., Ltd., a consolidated subsidiary, have introduced a performance-linked stock compensation system utilizing a trust (hereinafter the "System") for the Company's Executive Officers and Directors (excluding Directors who are not in charge of business execution) and Executive Officers of Japan Post Co., Ltd. (collectively referred to as "Executives subject to the System").

In accounting for the trust agreement, "Practical Solution on Transactions of Delivering the Company's Own Stock to Employees, etc. through Trusts" (ASBJ PITF No. 30, March 26, 2015) has been applied.

#### 1. Outline of the transactions

The System is a structure to provide the Company's shares, etc. to Executives subject to the System in accordance with the Stock Benefit Regulations of the Company and Japan Post Co., Ltd., and grants a certain number of points reflecting their levels of attainment of performance targets for the fiscal year. Upon retirement, Executives subject to the System shall receive from the trust the Company's shares and money in the amount equivalent to the fair value of a certain portion of the Company's shares as at the time of retirement in accordance with the number of points granted.

The shares provided for Executives subject to the System are acquired by the trust in advance using the funds set by the Company, and are managed separately as trust assets.

#### 2. The Company's shares remaining in the trust

The Company's shares remaining in the trust are recorded under net assets as treasury stock at the book value in the trust (excluding incidental expenses). The book value of the treasury stock was ¥981 million (\$9 million) and ¥1,028 million, and the number of shares of the treasury stock was 698 thousand shares and 731 thousand shares as of March 31, 2018 and 2017, respectively.

A stock compensation system utilizing a trust has also been introduced at Japan Post Bank Co., Ltd. and Japan Post Insurance Co., Ltd., which are consolidated subsidiaries.

For the fiscal year ended March 31, 2017

Adoption of Revised Implementation Guidance on Recoverability of Deferred Tax Assets

Effective from the fiscal year ended March 31, 2017, the Company and its domestic subsidiaries have adopted "Revised Implementation Guidance on Recoverability of Deferred Tax Assets" (ASBJ Guidance No. 26. March 28, 2016).

#### B. CASH AND CASH EQUIVALENTS

Reconciliation of Cash and Cash Equivalents in the Consolidated Statements of Cash Flows and Cash and Due from Banks in the Consolidated Balance Sheets

March 31	Millions	Millions of U.S. Dollars	
Walch 31	2018	2017	2018
Cash and due from banks	¥ 50,782,381	¥ 53,313,498	\$ 477,997
Negotiable certificates of deposit of the banking subsidiary included in "Cash and due from banks"	(65,000)	(65,000)	(612)
Negotiable certificates of deposit included in "Securities"	10,000	10,000	94
Deposits with maturities of more than three months	(165)	(125)	(2)
Bank overdrafts included in "Other liabilities"	(32,688)	(32,698)	(308)
Cash and cash equivalents at the end of the fiscal year	¥ 50,694,528	¥ 53,225,675	\$ 477,170

#### 4. SECURITIES

#### (1) Securities

Securities as of March 31, 2018 and 2017 consisted of the following:

March 31	Millions	Millions of U.S. Dollars	
	2018	2017	2018
Stocks and investments in capital <sup>1</sup>	¥ 247,369	¥ 77,387	\$ 2,328
Japanese government bonds <sup>2</sup>	102,339,666	111,552,469	963,288
Japanese local government bonds	14,918,774	15,309,030	140,425
Japanese corporate bonds	16,189,271	16,685,775	152,384
Other <sup>2</sup>	65,667,935	58,695,867	618,109
Total	¥ 199,363,017	¥ 202,320,530	\$ 1,876,534

#### Notes:

- 1. Stocks and investments in capital include investments in non-consolidated subsidiaries and affiliates of ¥15,382 million (\$145 million) and ¥16,889 million as of March 31, 2018 and 2017, respectively.
- 2. Unsecured and secured loaned securities for which borrowers have the right to sell or pledge in the amount of ¥1,911,005 million (\$17,988 million) and ¥157,014 million were included in Japanese government bonds and other in "Securities" as of March 31, 2018 and 2017, respectively.

  Unsecured borrowed securities and securities borrowed with cash collateral for which the Group has the right to sell or pledge amounted to ¥131,681 million (\$1,239 million) and nil for pledged securities, and ¥11,903,620 million (\$112,045 million) and ¥12,415,331 million for securities held at the end of the fiscal year without being sold or pledged as of March 31, 2018 and 2017, respectively.

#### (2) Policy-Reserve-Matching Bonds

The consolidated balance sheet amount and fair value of policy-reserve-matching bonds as of March 31, 2018 and 2017 were as follows:

٨٨	arch 31	Millions	Millions of U.S. Dollars	
Maich Si		2018	2017	2018
Co	onsolidated balance sheet amount	¥ 10,676,330	¥ 12,517,334	\$ 100,493
Fa	air value	11,769,615	13,697,410	110,783

The outline of the risk management policy of policy-reserve-matching bonds is as follows:

The insurance subsidiary categorizes its insurance products into the sub-groups below based on the attributes of each product in order to manage risks arising from fluctuations in interest rates of assets and liabilities, and adopts the management policy whereby the duration gap between policy-reserve-matching bonds and policy reserves by sub-groups are reconciled within a certain range and the duration gap is periodically checked.

- Postal Life Insurance Contracts (insurance policies with a remaining period within 20 years)
- Japan Post Insurance life insurance contracts (general) (all insurance policies)
- · Japan Post Insurance life insurance contracts (lump-sum payment annuity) (excluding some insurance types)

The sub-group covering Japan Post Insurance life insurance contracts (general) was formerly a sub-group consisting of insurance policies with a remaining period within 20 years; however, effective from the fiscal year ended March 31, 2017, the said sub-group has been changed to consist of all general insurance policies due to a recent increase in policy reserves for contracts with a remaining period of more than 20 years. This change had no effect on profit or loss.

(3) Fair Value Information on Securities and Policy-Reserve-Matching Bonds

The amounts shown in the following tables include negotiable certificates of deposit included in "Cash and due from banks", and "Monetary claims bought", in addition to "Securities".

Notes: 1. For securities managed as trust assets included in "Money Held in Trust Classified as Other than Trading or Held-to-Maturity", and in case whose fair value declines significantly from their acquisition cost, with no prospect of recovering to their acquisition cost, the Company records the fair value of such securities on the consolidated balance sheet and charges valuation differences as losses in the fiscal year in which they are recognized. Impairment losses amounted to ¥1,650 million (\$16 million) and ¥4,800 million for the fiscal years ended March 31, 2018 and 2017, respectively.

2. "Money held in trust classified as other than trading or held-to-maturity" include investment in a non-consolidated subsidiary of ¥8,150 million (\$77 million) as of March 31, 2018. There was no such money held in trust classified as other than trading or held-to-maturity as of March 31, 2017.

#### 5. ASSETS PLEDGED AS COLLATERAL

Assets pledged as collateral as of March 31, 2018 and 2017 consisted of the following:

March 31	Millions	Millions of Yen		
	2018	2017	2018	
Assets pledged as collateral:				
Securities	¥ 19,887,925	¥ 30,128,061	\$ 187,198	
Liabilities corresponding to assets pledged as collateral:				
Deposits	1,982,813	11,150,781	18,664	
Payables under repurchase agreements	1,932,490	960,937	18,190	
Payables under securities lending transactions	17,396,513	18,583,361	163,747	
Other liabilities	2,400	_	23	

In addition to the above, the following assets are pledged as collateral for the settlement accounts of Bank of Japan overdrafts, exchange settlement transactions, or derivative transactions and other transactions, and substituted for margins for future transactions as of March 31, 2018 and 2017:

March 31	Millions	Millions of U.S. Dollars	
	2018	2017	2018
Assets pledged as collateral:			
Cash and due from banks	¥ 30	¥ 61	\$ 0
Securities	682,296	697,785	6,422

"Other assets" include margins for future transactions, guarantee deposits, margins with central counterparty and cash collateral paid for financial instruments as of March 31, 2018 and 2017 as follows:

March 31	Millions	Millions of U.S. Dollars	
	2018	2017	2018
Other assets:			
Margins for future transactions	¥ 139,092	¥ 124,102	\$ 1,309
Guarantee deposits	15,703	15,180	148
Margins with central counterparty	511,672	125,475	4,816
Cash collateral paid for financial instruments	38,953	38,062	367

#### 6. LOANS

Risk management loans as of March 31, 2018 and 2017 were as follows:

March 31	Millions	s of Yen	Millions of U.S. Dollars
	2018	2017	2018
Loans to bankrupt borrowers	¥-	¥ —	\$-
Non-accrual delinquent loans	0	_	0
Past-due loans for three months or more	_	_	_
Restructured loans	_	_	_
Total	¥ 0	¥ —	\$ 0

Note: The above loan amounts are stated before deduction of reserve for possible loan losses.

Contracts of overdraft facilities and loan commitments are contracts with customers to lend funds up to a certain limit agreed in advance. The banking subsidiary will make the loans upon the request of an obligor to draw down funds under such loan agreements, unless any terms or conditions stipulated in the relevant loan agreement are violated. The amounts of unused commitments on loans of the banking subsidiary as of March 31, 2018 and 2017 were as follows:

March 31	Millions	s of Yen	Millions of U.S. Dollars		
Maich Si	2018	2017	2018		
Amount of unused commitments on loans	¥ 19,364	¥ 19,548	\$ 182		
Of which: unused commitments with a term of less than one year or that may be cancelled unconditionally at any point of time	_	_	_		

In many cases, the term of the agreement runs its course without the loan ever being drawn down. Therefore, the unused amount will not necessarily affect future cash flows of the banking subsidiary. Conditions are included in certain loan agreements that allow the banking subsidiary to decline the request for a loan draw-down when there is due cause to do so, such as when there is a change in financial condition or when it is necessary to protect the banking subsidiary's credit. At the inception of contracts, the banking subsidiary has the obligor pledge collateral to the banking subsidiary in the form of real estate, securities, etc., if considered to be necessary. Subsequently, the banking subsidiary reviews the obligor's financial condition in accordance with the banking subsidiary's established internal procedures and takes necessary measures to protect its credit.

The amounts of unused commitments on loans of the insurance subsidiary as of March 31, 2018 and 2017 were as follows:

March 31	Millions	s of Yen	en Millions of U.S. Dollars		
	2018	2017	2018		
Amount of unused commitments on loans	¥ 3,000	¥ —	\$ 28		

#### 7. TANGIBLE FIXED ASSETS

#### (1) Accumulated Depreciation

Accumulated depreciation as of March 31, 2018 and 2017 were as follows:

March 31	Millions	Millions of U.S. Dollars	
Maich 51	2018	2017	2018
Accumulated depreciation	¥ 1,335,371	¥ 1,269,215	\$ 12,569

#### (2) Deferred Gains on Tangible Fixed Assets Not Recognized for Tax Purposes

Deferred gains on tangible fixed assets not recognized for tax purposes as of March 31, 2018 and 2017 were as follows:

March 31	Millions	Millions of U.S. Dollars	
Malch 31	2018	2017	2018
Deferred gains on tangible fixed assets not recognized for tax purposes	¥ 63,221	¥ 63,071	\$ 595
Of which, deferred during the fiscal year	150	152	1

#### (3) Real Estate for Rent

The Company and certain consolidated subsidiaries own office buildings (including land), commercial buildings and others for rental purposes in Tokyo and other areas.

Years ended March 31	Millions	Millions of U.S. Dollars	
rears ended March 31	2018	2017	2018
Net rent income (losses) <sup>1</sup>	¥ 10,342	¥ 8,463	\$ 97
Net gains (losses) on sales <sup>2</sup>	2,829	157	27
Losses on impairment <sup>3</sup>	8,533	2,792	80
Other losses <sup>3</sup>	1,201	467	11

#### Notes:

- 1. Majority of rent income is recorded under other income, and majority of rent expenses are recorded under depreciation and amortization.
- 2. Gains on sales are recorded under other income, and losses on sales are recorded under other expenses.
- 3. Losses on impairment and other losses are recorded under other expenses.

The consolidated balance sheet amount, net change during the fiscal year and fair value of real estate for rent were as follows:

Years ended March 31	Millions	Millions of U.S. Dollars	
reals ended Malch 31	2018	2017	2018
Consolidated balance sheet amount <sup>1</sup>			
Balance at the beginning of the fiscal year	¥ 483,204	¥ 483,951	\$ 4,548
Net change during the fiscal year	(3,743)	(747)	(35)
Balance at the end of the fiscal year	¥ 479,460	¥ 483,204	\$ 4,513
Fair value at the end of the fiscal year <sup>2</sup>	¥ 572,762	¥ 553,087	\$ 5,391

#### Notes:

- 1. The consolidated balance sheet amount represents acquisition costs less accumulated depreciation and accumulated losses on impairment.
- 2. The fair value is calculated primarily based on the real estate appraisal standard.
- 3. Real estate for rent under construction is not included in the above table since it is extremely difficult to determine its fair value. The consolidated balance sheet amounts were ¥38,701 million (\$364 million) and ¥27,492 million as of March 31, 2018 and 2017, respectively.

#### 8. REINSURANCE

Reserve for outstanding claims for reinsured part defined in Article 71, Paragraph 1 of the Ordinance for Enforcement of the Insurance Business Act, which is referred to in Article 73, Paragraph 3 of the said Ordinance were ¥515 million (\$5 million) and ¥399 million as of March 31, 2018 and 2017, respectively.

Policy reserves for reinsured part defined in Article 71, Paragraph 1 of the said Ordinance were ¥946 million (\$9 million) and ¥768 million as of March 31, 2018 and 2017, respectively.

#### 9. OBLIGATIONS TO THE LIFE INSURANCE POLICYHOLDERS PROTECTION CORPORATION OF JAPAN

The insurance subsidiary estimated future contributions to the Life Insurance Policyholders Protection Corporation in the amounts of ¥31,569 million (\$297 million) and ¥28,868 million as of March 31, 2018 and 2017, respectively, pursuant to Article 259 of the Insurance Business Act. These obligations are recognized as operating expenses when they are paid.

#### 10. RESERVE FOR POLICYHOLDER DIVIDENDS

Changes in reserve for policyholder dividends for the fiscal years ended March 31, 2018 and 2017 were as follows:

Years ended March 31	Millions	Millions of U.S. Dollars	
rears ended March 31	2018	2017	2018
Balance at the beginning of the fiscal year	¥ 1,772,565	¥ 1,936,494	\$ 16,685
Policyholder dividends paid	(267,178)	(316,351)	(2,515)
Interest accrual, etc.	7	25	0
Reduction due to the acquisition of additional annuity	(297)	(283)	(3)
Provision for reserve for policyholder dividends	117,792	152,679	1,109
Balance at the end of the fiscal year	¥ 1,622,889	¥ 1,772,565	\$ 15,276

#### 11. BORROWINGS, LEASE OBLIGATIONS AND COMMERCIAL PAPERS

Borrowings and lease obligations as of March 31, 2018 and 2017 were as follows:

O	O .				
March 31	Millions	of Yen	Millions of U.S. Dollars	Average interest rate <sup>1</sup>	Due
March 31	2018	2017	2018	2018	2018
Borrowings	¥ 239,344	¥ 200,909	\$ 2,253	1.54%	April 2018 - September 2020
Lease obligations	20,624	21,351	194	2	April 2018 - March 2040

#### Notes:

- 1. The interest rates above are calculated using the weighted-average method based on the interest rate and balance at the fiscal year-end date.
- 2. The average interest rate of lease obligations is not presented above because interest included in the total amount of lease payments is allocated to each period using the straight-line method in certain consolidated subsidiaries.
- 3. Borrowings and lease obligations are included in "Other liabilities" in the accompanying consolidated balance sheets.

The repayment schedule on borrowings as of March 31, 2018 was as follows:

The repayment schedule on borrowings as of March 31, 2010 was as follows.				
March 31	Millions of Yen	Millions of U.S. Dollars		
Within 1 year	¥ 179,386	\$ 1,688		
Due after 1 year through 2 years	35,603	335		
Due after 2 years through 3 years	24,355	229		
Due after 3 years through 4 years	_	_		
Due after 4 years through 5 years	_	_		
Thereafter	_	_		
Total	¥ 239,344	\$ 2,253		

The repayment schedule on lease obligations as of March 31, 2018 was as follows:

March 31	Millions of Yen	Millions of U.S. Dollars
Within 1 year	¥ 1,530	\$ 14
Due after 1 year through 2 years	1,405	13
Due after 2 years through 3 years	1,244	12
Due after 3 years through 4 years	1,051	10
Due after 4 years through 5 years	915	9
Thereafter	14,477	136
Total	¥ 20,624	\$ 194

Commercial papers issued as of March 31, 2018 and 2017 to procure funds for operating activities were as follows:

March 31	Millions of Yen		Millions of U.S. Dollars	Average interest rate	Due
Maich Si	2018	2017	2018	2018	2018
Commercial papers	¥ 191,481	¥ 40,324	\$ 1,802	1.87%	April 2018 - June 2018

#### 12. ASSET RETIREMENT OBLIGATIONS

#### (1) Outline of Asset Retirement Obligations

The Group recorded asset retirement obligations with respect to asbestos removal costs during demolition of the Company's and subsidiaries' buildings, and restoration costs based on the real estate lease contracts of their business locations, company-owned housing and others.

The Group's network, comprised mainly of post offices, is required under the Postal Services Privatization Act to be maintained without fail from the perspective of public services provision. Therefore, restoration costs based on the real estate lease contracts related to facilities essential to the said network maintenance are recorded as asset retirement obligations only when their settlements are clearly expected due to reasons such as planned contract termination

#### (2) Calculation Method of Asset Retirement Obligations

The Group calculated the asset retirement obligations by estimating the period of service between 6 months and 47 years and applying discount rates ranging from 0.0% to 2.3%.

#### (3) Changes in Asset Retirement Obligations

Years ended March 31	Millions	Millions of U.S. Dollars	
reals ended March 51	2018	2017	2018
Balance at the beginning of the fiscal year	¥ 15,576	¥ 15,216	\$ 147
Obligations incurred due to acquisition of tangible fixed assets	268	48	3
Time progress adjustments	33	41	0
Obligations settled	(1,770)	(883)	(17)
Other <sup>1</sup>	7,522	1,154	71
Balance at the end of the fiscal year	¥ 21,630	¥ 15,576	\$ 204

Note: 1. "Other" for the fiscal year ended March 31, 2018 includes an increasing cost recognized as asset retirement obligations primarily due to the change in estimates of the removal costs for the future demolition of the assets.

#### 13. RETIREMENT BENEFITS

#### (1) Outline of Retirement Benefits

The Company and major consolidated subsidiaries have lump-sum severance indemnity plans as a defined benefit plan. Certain consolidated subsidiaries adopt the simplified method in calculating their retirement benefit obligations. Under the simplified method, the amount to be required for voluntary termination at the fiscal year-end is recorded as projected benefit obligations. The charges concerning share of public service pension and share of another public service pension (as defined in Note 2(14)) are included in the Company's retirement benefit obligations.

The Company has established retirement benefit trusts for the share of public service pension and share of another public service pension.

Certain consolidated subsidiaries have defined contribution pension plans. In addition, the amounts required to be contributed to the retirement pension benefit plans by the Company and certain consolidated subsidiaries based on the "Act for Partial Amendment of National Government Officials" (Retirement Allowance Act, etc. for the Purposes of Reviewing Benefit Levels of the Retirement Benefits for National Government Officials" (Act No. 96 of 2012), which was introduced from October 2015 as a new type of pension subsequent to the abolition of the specified occupation portion of the mutual aid pension program, were ¥10,893 million (\$103 million) and ¥10,785 million for the fiscal years ended March 31, 2018 and 2017, respectively.

#### (2) Defined Benefit Plans

March 31	Millions	Millions of U.S. Dollars	
Maich 31	2018	2017	2018
Unrecognized prior service cost	¥ 198,883	¥ 227,362	\$ 1,872
Unrecognized actuarial differences	99,779	111,358	939
Total	¥ 298,662	¥ 338,720	\$ 2,811

#### 7) Plan assets

March 31	2018	2017
Bonds	89%	89%
Stocks	0	0
Life insurance general account	0	0
Other	11	11
Total	100%	100%

Note: Total plan assets are comprised 98% of retirement benefit trusts as of March 31, 2018 and 2017, respectively, which were set up for share of public service pension and share of another public service pension.

Current and target asset allocations, current and expected returns on various categories of plan assets have been taken into consideration in determining the long-term expected rate of return on plan assets.

#### 8) Actuarial assumptions

The principal actuarial assumptions used for the fiscal years ended March 31, 2018 and 2017 were as follows:

Years ended March 31	2018	2017
Discount rate	0.2% - 0.7%	0.2% - 0.7%
Long-term expected rate of return on plan assets	0.1% - 2.0%	0.1% - 2.0%

#### (3) Defined Contribution Plans

The amounts required to be contributed to the defined contribution plans by certain consolidated subsidiaries were ¥13,986 million (\$132 million) and ¥13,536 million for the fiscal years ended March 31, 2018 and 2017, respectively.

#### 14. RESERVES RELATED TO REINSURANCE CONTRACTS

Policy reserves, excluding contingency reserve, related to reinsurance contracts with the Management Organization for Postal Savings and Postal Life Insurance, are provided at amounts calculated based on the statement of calculation procedures for the insurance subsidiary's insurance premiums and policy reserves. Such amount is set not to fall below the amount calculated based on the statement of calculation procedures for the Postal Life Insurance policy reserves in accordance with the Act on the Management Organization for Postal Savings and Postal Life Insurance (Act No. 101 of 2005). In addition, contingency reserve and reserve for price fluctuations are provided for this category of reinsurance.

The policy reserves, excluding contingency reserve, contingency reserve and reserve for price fluctuations provided for this category of reinsurance as of March 31, 2018 and 2017 were as follows:

March 31	Millions	Millions of U.S. Dollars	
March St	2018	2017	2018
Policy reserves (excluding contingency reserve)	¥ 38,351,137	¥ 42,010,637	\$ 360,986
Contingency reserve	1,665,082	1,838,804	15,673
Reserve for price fluctuations	665,523	648,432	6,264

#### 15. DEFERRED TAX ASSETS AND LIABILITIES

Significant components of deferred tax assets and liabilities as of March 31, 2018 and 2017 were as follows:

March 31	Millions	Millions of Yen		
Maich 31	2018	2017	2018	
Deferred tax assets:				
Liability for retirement benefits	¥ 818,966	¥ 844,310	\$ 7,709	
Policy reserves	832,310	736,401	7,834	
Reserve for outstanding claims	44,659	42,646	420	
Reserve for bonuses	38,757	31,403	365	
Reserve for price fluctuations	207,552	165,422	1,954	
Deferred losses on hedges	1	51,993	0	
Tax losses carried forward	263,274	258,493	2,478	
Other	205,527	184,703	1,935	
Subtotal	2,411,050	2,315,375	22,694	
Valuation allowance	(1,107,330)	(1,117,849)	(10,423)	
Total deferred tax assets	1,303,720	1,197,526	12,271	
Deferred tax liabilities:				
Unrealized gains on available-for-sale securities	(1,364,938)	(1,580,927)	(12,848)	
Unrealized gains on assets and liabilities of the consolidated subsidiaries	(8,583)	(9,971)	(81)	
Other	(27,911)	(27,000)	(263)	
Total deferred tax liabilities	(1,401,432)	(1,617,899)	(13,191)	
Net deferred tax assets (liabilities)	¥ (97,712)	¥ (420,372)	\$ (920)	

The Company and its domestic subsidiaries are subject to Japanese national and local income taxes, which, in aggregate, would result in a statutory tax rate of approximately 30.9% for the fiscal years ended March 31, 2018 and 2017, respectively.

Reconciliation of the effective income tax rate reflected in the accompanying consolidated statements of operations to the statutory tax rate for the fiscal years ended March 31, 2018 and 2017 was as follows:

Years ended March 31	2018	2017
Statutory tax rate	30.9%	30.9%
Income not taxable for income tax purposes (e.g. non-taxable dividend income)	(0.4)	(1.5)
Changes in valuation allowance	(3.1)	(7.2)
Impairment loss of goodwill	_	66.5
Other	0.5	2.2
Effective income tax rate	27.8%	90.8%

#### Notes

- 1. The total amount of dividends includes dividends of ¥22 million (\$0 million) for the Company's shares held by the management board benefit trust.
- 2. Per share amount includes a special dividend of  $\pm 7.00$  ( $\pm 0.07$ ).

#### 17. INACTIVE DEPOSITS

"Banking business income" for the fiscal years ended March 31, 2018 and 2017 included income from derecognition of inactive deposits recorded by the banking subsidiary, and "Other expenses" for the fiscal years ended March 31, 2018 and 2017 included provision for reserve for reimbursement of deposits by the banking subsidiary. The respective amounts were as follows:

Years ended March 31	Millions	Millions of U.S. Dollars	
reals effued March 31	2018	2017	2018
Income from derecognition of inactive deposits	¥ 144,679	¥ 9,751	\$ 1,362
Provision for reserve for reimbursement of deposits	84,473	2,096	795

#### 18. OTHER INCOME

Other income for the fiscal years ended March 31, 2018 and 2017 consisted of the following:

Years ended March 31	Millions	Millions of Yen		
reals ended Malch 31	2018	2017	2018	
Gains on sales of fixed assets <sup>1</sup>	¥ 88,182	¥ 958	\$ 830	
Gains on negative goodwill	568	_	5	
Compensation for transfer	190	1,329	2	
Compensation income	176	66	2	
Settlement received	1,001	4,041	9	
Gains on transfer of business	2,005	3,653	19	
Other	248,312	247,521	2,337	
Total	¥ 340,438	¥ 257,570	\$ 3,204	

Note: 1. For the fiscal year ended March 31, 2018, "Gains on sales of fixed assets" include gains on sales of fixed assets of ¥85,034 million (\$800 million) for the transfer of the former Tokyo service center owned by the insurance subsidiary.

#### 19. OTHER EXPENSES

Other expenses for the fiscal years ended March 31, 2018 and 2017 consisted of the following:

enter expenses for the insent / cars characters if zoro and zoro consisted of the following.					
Years ended March 31	Millions	Millions of Yen			
reals ended March 51	2018	2017	2018		
Losses on sales and disposal of fixed assets	¥ 4,762	¥ 5,757	\$ 45		
Losses on impairment of fixed assets <sup>1</sup>	17,964	419,479	169		
Provision for reserve for price fluctuations <sup>2</sup>	128,031	6,444	1,205		
Post office refurbishment expenses <sup>3</sup>	25,213	20,309	237		
Provision for reserve for policyholder dividends <sup>4</sup>	117,792	152,679	1,109		
Other	129,062	44,025	1,215		
Total	¥ 422,825	¥ 648,696	\$ 3,980		

#### Notes:

1. For the fiscal year ended March 31, 2017, "Losses on impairment of fixed assets" include impairment losses of ¥400,328 million (¥368,213 million for goodwill, ¥24,113 million for trademark rights, and ¥8,002 million for tangible fixed assets) related to Toll, a consolidated subsidiary. The Group conducts the grouping of assets based on units whose business performance is separately reported for internal management purposes.

Due to the slowdown in the Australian economy and other reasons, Toll's financial results had declined below the level of the fiscal year ended March 31, 2016. Under such circumstances, as a result of a review of the financial results forecast, future cash flows were expected to decrease sharply. Therefore, the book values of goodwill, trademark rights and part of tangible fixed assets were reduced to their recoverable value, and the reduced amount was recognized as losses on impairment of fixed assets in "Other

The recoverable value is determined based on the net realizable value, as the value in use calculated by discounting future cash flows at 8.2-19.3% is less than the net realizable value. The net realizable value is calculated based on the appraisal value.

2. "Provision for reserve for price fluctuations" for the fiscal year ended March 31, 2018 includes the amount corresponding to gains on sales of fixed assets of ¥86,053 million

- (\$810 million) recorded by the insurance subsidiary.
- 3. In order to prevent further deterioration of facilities and other assets, the Group has invested in construction work and prioritized spending on assets exceeding their economical useful lives and leased post office buildings which require improvements for earthquake resistance.
- 4. Provision for reserve for policyholder dividends, which is provided for the Management Organization for Postal Savings and Postal Life Insurance based on gains or losses and others arising in the category of reinsurance due to the reinsurance contracts with the Management Organization for Postal Savings and Postal Life Insurance, was ¥96,174 million (\$905 million) and ¥137,061 million for the fiscal years ended March 31, 2018 and 2017, respectively.

#### 20. OTHER COMPREHENSIVE LOSS

The components of other comprehensive loss for the fiscal years ended March 31, 2018 and 2017 were as follows:

Years ended March 31	Millions	of Yen	Millions of U.S. Dollars
rears ended March 31	2018	2017	2018
Net unrealized gains (losses) on available-for-sale securities:			
Amount arising during the fiscal year	¥ (346,783)	¥ (34,968)	\$ (3,264)
Reclassification adjustments	(334,051)	(308,439)	(3,144)
Before tax effect adjustments	(680,834)	(343,407)	(6,408)
Tax effect	212,303	104,050	1,998

Amount arising during the fiscal year	5	3	0
Total other comprehensive loss	¥ (393,462)	¥ (6,923)	\$ (3,704)

#### 21. FINANCIAL INSTRUMENTS

#### (1) Policy for Handling Financial Instruments

The Group is required to manage financial assets and financial liabilities owned by the banking subsidiary and insurance subsidiary in order to avoid the negative impact on the stability of their financial results resulting from the volatility due to future interest rate fluctuation and foreign exchange fluctuation, since these assets and liabilities are generally subject to changes in value due to fluctuations in market.

For this purpose, both companies endeavor to properly manage return and risk by using an asset liability management (ALM) framework, under which the companies enter into derivative transactions such as interest rate swaps, currency swaps and forward foreign exchange.

Derivative transactions are identified as a key hedging method against interest rate fluctuation risk and foreign exchange fluctuation risk to our investment assets, and principally these are not used for speculative purposes.

In addition, from the viewpoint of increasing profitability, both companies also work to invest in risk assets within an acceptable range while at the same time strengthening their risk management structures.

#### (2) Features and Risks of Financial Instruments

In the Group, financial assets owned by the banking subsidiary and insurance subsidiary consist mainly of securities such as domestic and foreign bonds, in particular Japanese government bonds, loans, stock investments through money held in trust and others. Such financial assets are exposed to risks including the credit risk of their issuing bodies, interest rate fluctuation risk and market price fluctuation risk.

From an ALM viewpoint, interest rate swaps are used as a means of hedging future economic value fluctuation risk and interest rate risk of securities, loans, fixed term deposits and others for interest rate-related transactions.

For currency-related transactions, currency swaps and forward foreign exchange are used as a means of hedging foreign exchange fluctuation risk in connection with the translation of foreign currency-denominated assets held by the banking subsidiary and insurance subsidiary and related Japanese yen translation amounts of

redemption of principal and interest.

In hedging risk using derivative transactions, the Group applies hedge accounting for transactions meeting certain prescribed requirements in order to limit impacts on financial results.

#### (3) Risk Management Framework for Financial Instruments

The Group has a basic policy for group risk management whereby basic principles regarding risk management as well as basic matters for which compliance is mandatory for risk management including risk categories to be managed by Group companies are prescribed, and risk management is carried out on a group basis.

The status of the risk management at each company is periodically reported to the management meeting at which the Group's risk management policies and risk management structures are discussed.

For risks such as market risk, credit risk and other types of risk, each company identifies risks that can be quantified and then uses value at risk (VaR), a measure of the maximum expected loss that could occur due to events with a certain probability, and other methods to measure these risks. The Company manages risk by confirming that the amount of risk measured at each of these two companies is kept within each company's equity capital.

#### Credit risk management

The banking subsidiary and insurance subsidiary use the VaR method to quantify and manage credit risk exposure, in accordance with the respective rules of the companies on credit risk management. Moreover, to control credit concentration risk, the companies provide credit limits and other criteria for individual companies and corporate groups and supervise these limits during each fiscal year.

#### 2) Management of market risk

#### Banking subsidiary

The banking subsidiary invests in domestic and foreign bonds, stocks and others based on the policy related with ALM as a banking business, and these are affected by fluctuations in interest rates, foreign exchange, stock price and others. Therefore the banking subsidiary quantitatively measures market risk using VaR, which is a statistical method, based on its market risk management regulations, and monitors and manages risk by setting limits for market risk and loss so that the amount of market risk is kept within an appropriate

amount of capital allocation, as determined by taking into account the amount of the company's equity capital.

The major financial instruments affected by fluctuations in risk variables (interest rates, foreign exchange and stock prices) related to major market risks are call loans, monetary claims bought, money held in trust, securities, loans, deposits and derivative transactions.

The banking subsidiary uses the historical simulation method (holding period — 240 business days (equivalent to 1 year); one-sided confidence interval — 99%; and observation period — 1,200 business days (equivalent to 5 years)). An internal model is used for measurement for liabilities. From the fiscal year ended March 31, 2018, the method for measuring credit spread fluctuation risk on market VaR has been revised. The amount of the market risk (estimated loss) as a whole was ¥3,542,833 million (\$33,347 million) and ¥2,413,737 million as of March 31, 2018 and 2017, respectively. The VaR measures the market risk quantity at a certain probability calculated statistically based on past market fluctuations, and accordingly, it may not be able to capture the risk under certain abnormal market. In order to avoid such risk, sensitivity testing is implemented using various scenarios.

Matters related to the design and operation of market risk management structures, and implementation of market risk management are reported and discussed regularly at the risk management committee, ALM committee, and management meeting.

In addition, taking into account features of assets with mainly Japanese government bonds, etc. and liabilities with mainly deposits, and recognizing the importance of interest rate risk sufficiently, the banking subsidiary implements interest rate risk management using a multifaceted approach, whereby profit or loss simulations are carried out based on various scenarios using ALM, and risks are managed.

The policy related with ALM is discussed and determined at the management meeting, and the status of the implementation is reported to the ALM committee and management meeting.

With respect to derivative transactions, the banking subsidiary has created separate departments for the execution of transactions.

assessment of hedge effectiveness, and administration, and has established an internal control system, in accordance with its derivative transaction regulations.

#### B) Insurance subsidiary

The insurance subsidiary categorizes market risk into interest rate risk and market price fluctuation risk for its management. Interest rate risk at the insurance subsidiary is the risk of losses resulting from fluctuation in the value of interest-bearing assets denominated in Japanese yen and insurance liabilities due to fluctuations in Japanese yen interest rates, and the risk arises because the insurance subsidiary has a limit in matching assets with liabilities, as an insurance company with a mission to offer universal service products including endowment insurance and whole life insurance. Market price fluctuation risk is any market risk other than interest rate risk.

Among the company-wide risks including the market risk, the insurance subsidiary identifies those that can be quantified and manages the company-wide risks by comparing the capital amount and the company-wide integrated risk amount calculated based on the amount of quantified risks.

- Management of liquidity risk related to fund raising activities
   The banking subsidiary and insurance subsidiary manage liquidity risk
   related to fund raising activities through the establishment of indexes
   of fund raising, etc.
- (4) Additional Notes Concerning the Fair Value of Financial Instruments The fair value of a financial instrument includes prices based on market quotations as well as rationally calculated prices. In calculating prices, certain premises and assumptions are adopted, and the use of different premises and assumptions may lead to changes in pricing.

#### (5) Fair Values of Financial Instruments

Amounts carried on the consolidated balance sheets, fair values and the difference between them as of March 31, 2018 and 2017 are as follows. Unlisted stocks and others for which fair values are extremely difficult to determine are not included in the table below.

Millions of Yen

<sup>1.</sup> General reserve for possible loan losses corresponding to loans has been deducted.
2. Derivative transactions recorded in Other assets/Other liabilities are expressed as lump sums. Net receivables and payables arising from derivative transactions are stated at net values, and if the values are negative, they are indicated in parentheses. Additionally, those subject to exceptional treatment for interest rate swaps and the allocation method for forward foreign exchange which requires recognized foreign currency assets or liabilities to be translated using the corresponding foreign exchange contract rates are jointly disclosed with hedged loans and securities. Therefore, their fair values are included in the relevant loans and securities.

Calculation method for fair values of financial instruments is as follows:

#### Assets

1) Cash and due from banks

For funds due from banks with no maturity date, fair value approximates book value, which is therefore used as fair value. For funds due from banks with a maturity date where the contract period is short (within a year), fair value approximates book value, which is therefore used as fair value.

2) Call loans and 3) Receivables under securities borrowing transactions

These are settled within a short-term (one year), and their fair values approximate book value, which is therefore used as fair value.

4) Monetary claims bought

Pricing offered by the broker and other third parties serves as fair value.

5) Trading account securities

The purchase price of the Bank of Japan serves as fair value.

6) Money held in trust

The fair value of securities invested in money held in trust is based primarily on the price on the stock exchange for stocks and on the Reference Statistical Prices [Yields] for OTC Bond Transactions published by the Japan Securities Dealers Association for bonds. In addition, the fair value of derivative transactions is based on the price provided by information vendors, etc.

Notes to money held in trust by categories based on holding purposes are provided in Note 4 (4) "Money Held in Trust".

#### Securities

The fair value of bonds is based on the price quoted by the exchange, the Reference Statistical Prices [Yields] for OTC Bond Transactions published by the Japan Securities Dealers Association, the price calculated using the comparable price method, or the price provided by a broker, etc. The fair value of stocks is based primarily on the price on the stock exchange, and the fair value of investment trusts is based primarily on the fund's unit price.

Notes to securities by categories based on holding purposes are provided in Note 4 (3) "Fair Value Information on Securities and Policy-Reserve-Matching Bonds".

#### 8) Loans

For loans with variable interest rates, which follow market interest rates only over the short-term, fair value approximates book value unless the obligor's credit standing significantly differs after the transaction. In such cases, book value serves as fair value. For loans with fixed interest rates, fair value is based on a net discounted present value of future cash flows.

For loans where amounts are limited to the values of corresponding collateral and which have no fixed date of repayments, book values are used as fair values, because their fair values approximate book value considering the loan terms and conditions.

#### Liabilities

#### 1) Deposits

For demand deposits, the payment amount (book value) if demanded on the consolidated balance sheet date is deemed to be the fair value of such demand deposits. For fixed-term deposits, fair value is based on the net discounted present value of estimated future cash flows, following a division into certain periods. The interest rate applicable to new savings is used as the discount rate.

2) Call money, 3) Payables under repurchase agreements, 4) Payables under securities lending transactions and 5) Commercial papers These are settled within a short-term (one year), and their fair values approximate book value, which is therefore used as fair value.

#### **Derivatives**

Derivatives consist of interest rate-related transactions (interest rate futures and interest rate swaps), currency-related transactions (forward foreign exchange and currency swaps, etc.), stock-related transactions (stock index futures), bond-related transactions (bond futures) and credit-related transactions (credit default swaps). Fair value is based on the price quoted by the exchange or values obtained from net present value calculations.

The consolidated balance sheet amounts of financial instruments for which fair values are deemed extremely difficult to determine are as shown below; they are not included in "Assets 6) Money held in trust" and "Assets 7) Securities" under information concerning fair values of financial instruments.

March 31	Millions	Millions of U.S. Dollars	
March 31	2018	2017	2018
Money held in trust <sup>1</sup>	¥ 158,895	¥ 14,641	\$ 1,496
Securities			
Unlisted stocks <sup>2</sup>	25,843	23,289	243
Investment trusts <sup>3</sup>	457,183	122,477	4,303
Investments in partnerships <sup>4</sup>	11,828	1,942	111
Total	¥ 653,751	¥ 162,350	\$ 6,154

#### Notes:

- 1. Money held in trust, for which underlying assets held by the trust such as investment in private REIT are extremely difficult to determine their fair values, is not included in the scope of fair value disclosures.
- 2. Unlisted stocks are not included in the scope of fair value disclosures because there are no available market prices and it is extremely difficult to determine their fair values.
- 3. Investment trusts, for which underlying assets held by the trust such as unlisted stocks are extremely difficult to determine their fair values, are not included in the scope of fair value disclosures.
- 4. Investments in partnerships are not included in the scope of fair value disclosures because they consist of partnership asset components such as unlisted stocks which are extremely difficult to determine their fair values.

#### 22. DERIVATIVE TRANSACTIONS

(1) Derivative Transactions to Which the Hedge Accounting Method Is Not Applied The following tables set forth the contract amount or the amount equivalent to the principal, fair value and valuation gains (losses) at the end of the fiscal year by transaction type, and calculation method of fair value with respect to derivative transactions to which the hedge accounting method is not applied. Contract amount does not indicate the market risk related to derivative transactions.

#### 1) Interest rate-related derivatives

Millions of Yen

Total			\$ 5	\$ 5		

- Notes:

  1. The above transactions are valued at fair value and the related valuation gains (losses) are accounted for in the consolidated statements of operations.
- 2. Fair value is calculated using discounted present value.

  3. "Sold" represents transactions which the credit risk has been assumed.

There were no credit-related derivatives as of March 31, 2017.

- (2) Derivative Transactions to Which the Hedge Accounting Method Is Applied The following tables set forth the contract amount or the amount equivalent to the principal and fair value at the end of the fiscal year by transaction type and hedge accounting method, and calculation method of fair value with respect to derivative transactions to which the hedge accounting method is applied. Contract amount does not indicate the market risk related to derivative transactions.
- 1) Interest rate-related derivatives

Millions of Yen

March 31				2018	
Hedge accounting method	Type of derivative	Major hedged item	Contract amount	Contract amount due after 1 year	Fair value <sup>2</sup>
Deferral hedge method	Interest rate swaps:				
	Receivable fixed rate / Payable floating rate	Securities Loans	¥ 1,821,750	¥ 1,816,150	¥ 3,217
	Receivable floating rate / Payable fixed rate	Deposits	4,535,521	4,368,620	(159,670)
Exceptional treatment for interest rate swaps	Interest rate swaps:  Receivable fixed rate / Payable floating rate	Loans	39,750	30,100	_3
Total					¥ (156,452)

Millions of Yen

Total					¥ (250,359)	

#### Millions of U.S. Dollars

March 31				2018	
Hedge accounting method	Type of derivative	Major hedged item	Contract amount	Contract amount due after 1 year	Fair value <sup>2</sup>
Deferral hedge method	Interest rate swaps:				
	Receivable fixed rate / Payable floating rate	Securities Loans	\$ 17,147	\$ 17,095	\$ 30
	Receivable floating rate / Payable fixed rate	Deposits	42,691	41,120	(1,503)
Exceptional treatment for interest rate swaps	Interest rate swaps:  Receivable fixed rate /	Loans	374	283	_3
	Payable floating rate				A (1.4=0)
Total					\$ (1,473)

#### Notes:

- 1. In principle, these derivatives are accounted for using deferred hedge accounting.
  2. Fair value of over-the-counter transactions is calculated using discounted present value, option pricing models and other methods.
  3. Interest rate swaps subject to the exceptional treatment are accounted for in combination with the loans that are subject to the hedge. Therefore their fair value is included in the fair value of the relevant loans in Note 21 "FINANCIAL INSTRUMENTS."

Total					\$ 1,287

#### Notes:

- In principle, these derivatives are accounted for using deferred hedge accounting.
   Fair value is calculated using discounted present value and other methods.
   Forward foreign exchange subject to the allocation method is accounted for in combination with the securities that are subject to the hedge. Therefore their fair value is included in the fair value of the relevant securities in Note 21 "FINANCIAL INSTRUMENTS."

#### 23. CONTRACTS

Future payments on service contracts for system-related services (such as usage of hardware, software, telecommunication services and maintenance) as of March 31, 2018 and 2017 were as follows:

March 31	Millions	Millions of U.S. Dollars	
Maich 31	2018	2017	2018
Due within 1 year	¥ 790	¥ 589	\$ 7
Due after 1 year	662	624	6

#### 24. LEASE TRANSACTIONS

Operating Leases

#### (1) As lessee

Future lease payments under non-cancelable operating leases as of March 31, 2018 and 2017 were as follows:

March 31	Millions	Millions of U.S. Dollars	
Maich 31	2018	2017	2018
Due within 1 year	¥ 31,470	¥ 29,895	\$ 296
Due after 1 year	143,065	123,289	1,347
Total	¥ 174,536	¥ 153,185	\$ 1,643

#### (2) As lessor

Future lease receivables under non-cancelable operating leases as of March 31, 2018 and 2017 were as follows:

March 31	Millions	Millions of U.S. Dollars		
Maich 31	2018	2017	2018	
Due within 1 year	¥ 16,781	¥ 14,451	\$ 158	
Due after 1 year	63,219	47,346	595	
Total	¥ 80,001	¥ 61,798	\$ 753	

#### 25. CONTINGENT LIABILITIES

In the event that the Company's consolidated subsidiary cancels all or part of its lease contracts for post offices, the lessors shall be entitled to seek compensation for the cancellation. The amounts of compensation are calculated based on the amounts of uncollectible investment. The possible amounts of compensation were ¥80,929 million (\$762 million) and ¥87,418 million as of March 31, 2018 and 2017, respectively.

Compensation shall not be made in full in the case where the offices are used for purposes other than originally intended, regardless of whether the contracts were cancelled on the side of the Company's subsidiary.

#### 26. SEGMENT INFORMATION

#### (1) Outline of Reportable Segments

The Group's reportable segments are categorized based on certain criteria for which discrete financial information is available and reviewed regularly by the management in order to make decisions about resources to be allocated to the segment and assess its performance.

The Group assesses business performance primarily by assessing the performance of each individual consolidated subsidiary and as such recognizes each consolidated subsidiary as an identifiable business segment unit except for Japan Post Co., Ltd., which is classified into postal and domestic logistics business segment and post office business segment. The Group determines its reportable segments by aggregating business segment units with similar economic characteristics, market selling products and services, customer type and other factors.

The Group's reportable segments are (1) postal and domestic logistics business and (2) post office business operated mainly by Japan Post Co., Ltd., (3) international logistics business operated mainly by Toll, (4) banking business operated mainly by Japan Post Bank Co., Ltd., and (5) life insurance business operated mainly by Japan Post Insurance Co., Ltd.

(2) Method of Calculating Income, Profit and Loss, and Assets and Other Items by Reportable Segment

Accounting policies applied to the reportable segments are the same as those described in Note 2 "SIGNIFICANT ACCOUNTING POLICIES." Intersegment income is determined based on market prices or total cost.

(6) Information on Gains on Negative Goodwill by Reportable Segment

The international logistics business segment recorded gains on negative goodwill of ¥568 million (\$5 million) due to the acquisition of the port and harbor transportation business by a consolidated subsidiary of Toll for the fiscal year ended March 31, 2018.

There were no gains on negative goodwill for the fiscal year ended March 31, 2017.

- (7) Supplemental Information
- 1) Information by services

This information is omitted because similar information has been presented above for the fiscal years ended March 31, 2018 and 2017.

- 2) Information by geographic region
- A) Income

This information is omitted because income to customers in Japan exceeded 90% of income in the consolidated statements of operations for the fiscal years ended March 31, 2018 and 2017.

B) Tangible fixed assets

This information is omitted because the balance of tangible fixed assets in Japan exceeded 90% of the total balance on the consolidated balance sheets for the fiscal years ended March 31, 2018 and 2017.

3) Information by major customer

This information is omitted because no customer accounted for 10% or more of income in the consolidated statements of operations for the fiscal years ended March 31, 2018 and 2017.

# Independent Auditor's Report

To the Board of Directors of JAPAN POST HOLDINGS Co., Ltd.:

We have audited the accompanying consolidated financial statements of JAPAN POST HOLDINGS Co., Ltd. and its consolidated subsidiaries, which comprise the consolidated balance sheets as at March 31, 2018 and 2017, and the consolidated statements of operations, statements of comprehensive income, statements of changes in net assets and statements of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

# Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of JAPAN POST HOLDINGS Co., Ltd. and its consolidated subsidiaries as at March 31, 2018 and 2017, and their financial performance and cash flows for the years then ended in accordance with accounting principles generally accepted in Japan.

### Convenience Translation

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2018 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 1 to the consolidated financial statements.

Note 1: The consolidated capital adequacy ratio (domestic standard) is calculated in line with provisions of Article 52-25 of the Banking Act and on the basis of criteria for judging whether a bank holding company's capital adequacy ratio and that of its subsidiaries are appropriate in light of assets held (Financial Services Agency Notice No. 20, 2006, hereinafter referred to as Holding Company Capital Adequacy Ratio Notice).

The data is calculated on a consolidated basis and according to the domestic standard.

Note 2: In accordance with tricle 15, Paragraph 2 of the Holding Company Capital Adequacy Ratio Notice, Japan Post Insurance Co., Ltd. is not included in the

scope of consolidation.

# **Qualitative Disclosure**

- 1. Scope of consolidation
- (1) Differences and the causes of the relevant differences between companies belonging to Japan Post Group that calculate the consolidated capital adequacy ratio in accordance with Article 15 of the Financial Service Agency's (FSA) Holding Company Capital Adequacy Ratio Notice and companies that are included in the scope of consolidation in accordance with Regulations for Consolidated Financial Statements

The Company calculates its consolidated capital adequacy ratio as follows. Pursuant to Article 52-25 of the Banking Act, Consolidated capital adequacy ratio is calculated its capital adequacy in accordance with the capital adequacy ratio measurement guidelines, FSA's Notice No. 20, March 27, 2006 (hereinafter referred to as Holding Company Capital Adequacy Ratio Notice), which requires the bank holding company to calculate its capital adequacy based on assessment of the assets of the bank holding company and its subsidiaries. Please refer to page 79 for the names of principal subsidiaries. In accordance with Article 15, the Group is comprised of the following 263 companies (hereafter the "Group") for the purpose of the calculation of the consolidated capital ratio. In accordance with the provisions of Article 15, Paragraph 3 of the Holding Company Capital Adequacy Ratio Notice, Japan Post Insurance Co., Ltd., an insurance subsidiary, is not included in the scope of consolidation.

However, according to the Regulations of Consolidated Financial Statements, the scope of consolidation includes 264 companies, comprising 263 consolidated subsidiaries and Japan Post Insurance Co., Ltd., a Group company.

Further details on Japan Post Insurance Co., Ltd. are presented on pages 30 through 31 and 87 through 89.

(2) Number of consolidated subsidiaries and names and details of main business activities of principal consolidated subsidiaries within the Group As mentioned previously, the Group is composed of the Company and 263 companies under the Holding Company Capital Adequacy Ratio Notice.

Principal consolidated subsidiaries are Japan Post Co., Ltd. and Japan Post Bank Co., Ltd. For details of business activities of the principal consolidated subsidiaries, refer to pages 28 through 29 and 84 through 86 of this report.

- (3) Number of affiliated corporations engaged in financial businesses subject to application of Article 21 of the Holding Company Capital Adequacy Ratio Notice, names of affiliated companies engaged in the relevant financial businesses, total amounts of assets and total amounts of net assets on the balance sheets and details of principal businesses.
- (4) Names of companies belonging to the Group that are not included in the scope of consolidation and companies not belonging to the Group that are included in the scope of consolidation, total amounts of assets and total amounts of net assets on the balance sheets and details of principal businesses.
  - Companies belonging to the Group that are not included in the scope of consolidation

None

Companies not belonging to the Group that are included in the scope of consolidation

Japan Post Insurance Co., Ltd.

Refer to page 91 of this report for details on the total amount of assets and total amount of net assets for Japan Post Insurance Co., Ltd. and to pages 30 - 31 of this report for details about the company's main business activities.

(5) Restrictions on transfer of funds and common stock among companies in the holding company group

None

 Overview of capital instruments (This entire amount or partial amount are referred to as capital instruments and included in basic items of core capital as calculated under Article 14 of Holding Company Capital Adequacy Ratio Notice.)

The Company raises capital through equity financing (issuance of common stock).

3. Overview of method for evaluating the level of capital adequacy for the

#### Group

With regard to the current adequacy of capital, the consolidated capital adequacy ratio as of March 31, 2018 calculated in accordance with the Holding Company Capital Adequacy Ratio Notice was 19.11%. This level is substantially higher than the 4% capital adequacy ratio of the domestic standard. When calculating the consolidated capital adequacy ratio, the standardized approach is used for credit risk and the basic indicator approach is used for operational risk. A figure for market risk is not included.

\*Japan Post Bank holds most of the assets with risk exposure concerning risk categories for companies belonging to the holding company's group with regard to Holding Company Capital Adequacy Ratio Notice. Consequently, the following section covers primarily risk management at Japan Post Bank.

As a bank holding company, Japan Post Holdings monitors the overall risk management framework at Japan Post Bank. In addition, the holding company supervises risk management for the entire Group in accordance with the Basic Policy for Group Risk Management. Please refer to "Japan Post Group Risk" on pages 64 through 65 for more information about risk management for Japan Post Group.

- 4. Credit risk
- (1) Summary of risk management policy and procedures

Credit risk is the risk of incurring a loss due to a decline in the value of assets (including off-balance-sheet assets), or total loss of value due to the deteriorating financial condition of an obligor or to other factors.

Japan Post Bank uses a statistical method called value at risk (VaR) to quantify credit risk exposure. Japan Post Bank monitors its credit risk limit amounts on an ongoing basis in order to ensure that VaR does not exceed allocated risk capital. Japan Post Bank also carries out stress testing to consider the possibility of credit risk due to large-scale economic fluctuations outside those in the VaR model.

Japan Post Bank sets credit limits for exposure for individual companies, corporate groups, and countries and areas and manages and monitors this exposure in order to control credit concentration risk.

To provide a system of checks and balances for credit risk management, Japan Post Bank has a Risk Management Department, positioned as a middle management unit, and a Credit Department, positioned as a credit control unit. Within the Bank's organization, these units are independent of front-office and back-office operations. The Risk Management Department oversees the internal credit rating system, self-assessments of assets and other credit risk activities. The Credit Department is responsible for monitoring individual credit accounts, including the assignment of internal credit ratings, monitoring of status of borrowers and overseeing of large borrowers and screening of loans.

The Risk Management Committee, ALM Committee and Executive Committee hold discussions and reach decisions on matters concerning the establishment and operation of credit risk management programs and on credit risk management.

Moreover, Japan Post Bank conducts credit business with the basic principles of public welfare, financial soundness and profitability. The Bank establishes the credit code to underpin sound and appropriate credit business activities by all executives and employees, in which the Bank has defined in writing its basic philosophy, action guidelines and other items of credit business.

Reserve for possible loan losses is provided for in accordance with the write-off and provision standards from the "Practical Guidance for Checking Internal Controls for Self-Assessments of Assets by Banks and Other Financial Institutions and for Audits of Loans Written Off and Loan Loss Allowance Provisions" (Japanese Institute of Certified Public Accountants (JICPA), Special Committee for Audits of Banks, etc. Report No. 4). In accordance with self-assessment standards for assets, all loans are categorized by marketing departments and then audited by independent credit assessment departments.

Moreover, Japan Post Bank continuously monitors individual obligor's

ability to meet the financial obligations, their financial condition and other factors affecting their credit standing in order to check obligors' credit risk in a timely and suitable manner. Additionally, Japan Post Bank performs even more-strict monitoring of borrowers with business conditions requiring close attention, such as borrowers at risk of having their credit rating downgraded due to deteriorating business results and borrowers with a steep decline in their stock price.

- (2) Portfolios where the standardized approach is applied
  - Qualified rating agencies, etc. used in making judgments on risk weights
     When making judgments on risk weight, Japan Post Bank uses the
     credit ratings of four rating agencies and the Organisation for Economic
     Co-operation and Development (OECD). The four credit rating agencies
     are Rating and Investment Information, Inc. (R&I); Japan Credit Rating
     Agency, Ltd. (JCR); Moody's Investors Service, Inc. (Moody's); and S&P
     Global Ratings (S&P).

For the calculation of the Group consolidated capital adequacy ratio, Japan Post Holdings also uses the ratings of Fitch Ratings Limited.

Qualified rating agencies, etc. used to determine risk weight for each category of exposure

Japan Post Bank uses the following qualified rating agencies for each of the following credit risk exposure categories.

In the case where multiple credit rating agencies provide ratings, the Bank selects the credit rating that yields the second smallest risk weight in accordance with Ministerial Notification of Capital Adequacy Ratio of the FSA's Notice No. 19, March 27, 2006, criteria on whether or not the adequacy of equity capital of a Bank is appropriate in light of the circumstances such as the assets owned by that Bank as stipulated by Article 14-2 of the Banking Act (hereinafter referred to as "Capital Adequacy Ratio Notice").

Summary of risk management policy and procedures for credit risk mitigation methods

In calculating the capital adequacy ratio, Japan Post Bank applies "credit risk mitigation methods" prescribed in the Capital Adequacy Ratio Notice. These methods are used to incorporate the risk mitigation effects of collateral, guarantees and other items in the capital adequacy ratio. These methods include qualified financial collateral, the netting of loans and self deposits, and guaranties and credit derivatives.

- Types of qualified financial collateral

  Japan Post Bank accepts cash, self deposits and securities as qualified finan-
- Summary of policy and procedures for valuation and management of collateral
- collateral
  Japan Post Bank uses "the Simple Method" prescribed in the Capital

Adequacy Ratio Notice for application of the qualified financial collateral.

The Bank has established internal bank procedures to permit the timely disposal or acquisition of qualified financial collateral based on contracts.

disposal or acquisition of qualified financial collateral based on contracts concerning collateral as prescribed in loan agreements, etc.

 Summary of policy and procedures for offsetting loans and self deposits and types and scope of applicable transactions

For the use of the netting of loans and self deposits, as prescribed in the

special terms for netting in the bank transaction agreement, etc., Japan Post Bank uses the remaining amount after netting loans and self deposits as the amount of exposure for calculating the capital adequacy ratio.

As of the end of March 2018, Japan Post Bank was not using the offsetting of loans and self deposits.

■ Categories and credit standing of guarantors and major credit derivative counterparties

Principal guarantors at Japan Post Bank are the central governments, etc. to which lower risk weightings than the guaranteed obligations are applied.

Additionally, credit derivative counterparties are the financial institutions to which lower risk weightings than the guaranteed obligations are applied.

- Summary of policy and procedures when using legally binding mutual netting contracts for derivative transactions and transactions with repurchase agreements and categories and scope of applicable transactions
  - Japan Post Bank considers the results of derivatives transactions, including interest swaps and currency swaps, for which it has concluded effective netting contracts in accordance with the legal systems of each country in which it carries out transactions
- Information concerning concentrations of credit risk and market risk associated with the use of credit risk mitigation methods

The principal credit risk mitigation methods of Japan Post Bank are qualified financial collateral that use cash and self deposits and there is no concentration of credit risk and market risk.

- Summary of risk management policy and procedures for counterparty risk concerning derivative transactions and transactions with long term settlements
- (1) Policy on collateral security and reserve calculation, impact in the event of need for provision of additional collateral due to downturn in credit standing of Japan Post Bank

As required, Japan Post Bank enters into contracts for the mitigation of credit risk in which collateral is periodically submitted or received with the derivative transaction counterparty in order to cover rebuilding and other costs. Under the provision of these contracts, a decline in the financial condition of Japan Post Bank may require the provision of additional collateral to the counterparty. However, the Bank believes that the impact would be negligible.

The policy for calculating the allowance for derivative transaction losses is the same as for ordinary balance sheet assets.

(2) Policy for credit limits and allocation of capital for risk exposure When conducting derivative transactions, Japan Post Bank assigns obligor ratings to all counterparties and provides credit limits in accordance with the rating of each counterparty. These limits are monitored on a daily basis. In addition, to manage credit risk, the balance of credit extended is calculated using the current exposure method, which takes into account the market value of derivatives and future price volatility risk.

The allocation of capital for taking on risk for derivative transactions is almost the same as other transactions.

- 7. Securitization exposure
- (1) Summary of risk management policy and risk characteristics

As an investor, Japan Post Bank is exposed to risks associated with securitization. Just as with investments in other securities, for purchasing, the Bank provides credit limits based on obligor ratings assigned in accordance with the Bank's own thorough examination of underlying assets, the senior/subordinate rights structure, the nature of securitization scheme and other factors. Following a purchase, the Bank monitors any decline in the quality of and changes in the composition of the underlying assets as well as other factors. Also, credit risk with securitization exposure is included in the calculation of credit risk and interest rate risk is included in the calculation of market risk. In addition, the Bank is also aware of market liquidity risk and reports on the state of these risks to the Executive Committee and other bodies.

The procedure concerning re-securitization exposure is the same as for securitization exposure.

(2) Outline of the establishment and state of operation of a system prescribed by Article 227, Paragraph 4-3 to 4-6 of Holding Company Capital Adequacy Ratio Notice (includes cases of application pursuant to Article 232, Paragraph 2 and Article 280-4, Paragraph 1) of Holding Company Capital Adequacy Ratio Notice.

For securitization exposure risk, Japan Post Bank operates a structure that ascertains on a timely basis information concerning comprehensive risk

cial collateral.

characteristics and performance. Specifically, in addition to the Bank periodically reviewing obligor ratings in the event that a decline in the quality of or change in the structure of underlying assets has an impact on obligor ratings, the Bank provisionally reviews the obligor ratings.

The procedures concerning re-securitization exposure are the same as for securitization exposure.

- (3) Policies on using securitization transactions as a credit risk mitigation method
  - Japan Post Bank does not use securitization transactions as a credit risk mitigation method.
- (4) Name of method used to calculate amount of credit risk assets for securitization exposure
  - Japan Post Bank uses the standardized approach prescribed in the Capital Adequacy Ratio Notice for calculating the amount of credit risk assets for securitization exposure.
- (5) Name of method used for calculating an amount equivalent to market risk of securitization exposure
  - Not applicable
- (6) Distinguishing types of conduits for securitization and whether the Group is exposed to risks associated with securitization from securitization transactions when using conduits for securitization in executing securitization transactions for third-party assets.
  - Japan Post Group does not use conduits for securitization to execute securitization transactions involving third-party assets.
- (7) Among the Group's subsidiaries (excluding consolidated subsidiaries, etc.) and affiliate companies, names of those companies exposed to risk associated with securitization transactions carried out by the Group (including securitization transactions using conduits for securitization) Not applicable
- (8) Accounting policy on securitized transactions

For the recognition, valuation and accounting treatment of origination and extinguishment of financial assets and liabilities associated with securitized transactions, Japan Post Bank applies ASBJ Statement No. 10 "Accounting Standard for Financial Instruments" (January 22, 1999, Business Accounting Council).

(9) Name of qualified rating agencies used in making judgments on risk weight for securitization exposure by category

Japan Post Bank uses the ratings of the following credit rating agencies for the calculation of credit risk assets for securitization exposure:

Rating and Investment Information, Inc. (R&I)

Japan Credit Rating Agency, Ltd. (JCR)

Moody's Investors Service, Inc. (Moody's)

S&P Global Ratings (S&P)

- 8. Operational risk
- (1) Summary of risk management policy and procedures

Japan Post Group defines operational risk as the risk of incurring losses caused by inappropriate activity involving business processes, the activities of executives and employees or computer systems, or by external events.

Japan Post Bank has seven categories of operational risk: processing risk, IT system risk, information assets risk, legal risk, human resources risk, tangible assets risk and reputational risk.

Japan Post Bank identifies, assesses, controls, monitors and mitigates risk for each risk category to manage operational risk and to maintain the soundness of their operations. To manage risk, Japan Post Bank identifies risks associated with business operations and evaluates these risks based on the frequency of their occurrence and the scale of their impact on operations. The Bank provides controls in accordance with the importance of each risk, monitors these risks and takes actions as required.

In addition, Japan Post Bank prepares a list of operational risks associated with business processes, products, computer systems and other items. The Bank periodically uses a Risk & Control Self Assessment (RCSA) process to determine the effectiveness of management systems aimed at reducing exposure to these risks. Based on the results of RCSA, for areas in which it is recognized that risk management needs to be improved and areas that risk management especially needs to be reinforced, improvement plans are formulated and improvement plans for reducing risk are discussed and formulated

Japan Post Bank is making preparations for using systems to report actualized events such as clerical accidents or system problems. The content of

- the reports analyzes the causes and tendencies of clerical accidents, system problems and other matters and is used as basic data for taking effective countermeasures.
- (2) The name of method used for the calculation of an amount equivalent to operational risk
  - Japan Post Bank uses the "basic indicator approach" with regard to the calculation of an amount equivalent to operational risk.
- Summary of risk management policy and procedures for investments, shares and other exposure in banking account

Japan Post Bank, which is a company engaged in the banking business that belongs to the Group as prescribed in Holding Company Capital Adequacy Ratio Notice, monitors and manages exposure to investments, stock, and other assets as owned by the bank in the banking account based on the framework of market risk management and credit risk management. It does so by establishing market risk limits and loss limits so that the amount of market risk does not exceed the amount of capital allocated for market risk, based on the Bank's equity and other resources.

- 10. Interest rate risk in the banking account
- (1) Summary of risk management policy and procedures

Interest rate risk is the risk of incurring a loss due to interest rate fluctuations and the risk of a decline in earnings or loss resulting from interest rate fluctuations when there is an interest rate or maturity mismatch between assets and liabilities.

At Japan Post Bank, market investments account for the majority of assets and TEIGAKU deposits account for the majority of liabilities. The Bank has a market risk management system that reflects the characteristics and risk profile of these operations.

Japan Post Bank uses a statistical method called VaR to quantify the amount of market risk. Risk is monitored and managed by establishing market risk limits and loss limits so that the amount of market risk does not exceed the amount of capital allocated for market risk, based on the Bank's equity and other resources. In addition, Japan Post Bank performs stress tests to be prepared for extreme market volatility that exceeds the range that can be statistically foreseen. Furthermore, Japan Post Bank sufficiently recognizes the importance of interest rate risk and is building a system for multifaceted and proper ascertaining of interest rate risk through measures that include profit or loss simulations carried out based on various scenarios.

To provide a system of checks and balances for market risk management, Japan Post Bank has established the Risk Management Department, which is positioned as a middle office unit that is independent of front office and back office units. The Risk Management Committee, ALM Committee and Executive Committee hold discussions and reach decisions concerning matters involving the establishment and operation of the market risk management system and the execution of market risk management.

For reaching proper decisions quickly, daily reports are submitted to senior management concerning the volume of market risk (VaR), compliance with limits for market risk exposure and loss limits for market risk and other items. In addition, Japan Post Bank analyzes risk on a regular basis by using back testing and stress testing and reports the results of these tests to the Executive Committee. These activities are aimed at consistently generating earnings while properly controlling market risk.

(2) Summary of method for calculating interest rate risk for internal management

Japan Post Bank adopts the historical simulation method for the internal model used to measure market risk (VaR). The VaR model is based on a one-tailed confidence level of 99%, a holding period of 240 business days (i.e., one year) and an observation period of 1,200 business days (i.e., five years).

To measure market risk relating to liquid deposits, the Bank has applied an internal model to allocate the estimated balance and termination dates of liquid deposits that have remained on deposit in the Bank for a long term without being withdrawn and calculates the interest rate risk amount for them. Market risk relating to TEIGAKU deposits is calculated based on an estimated future cash flow model.

- Note 1: Ratings are used for those rated by qualified rating agencies in principle.
- Note 2: The exposure amount includes balances before the deduction of specific reserve for possible loan losses and after the application of credit risk mitigation methods.
- Note 3: Regarding assets to which the Company applies credit risk mitigation techniques for a portion of its exposure, the Group records exposure amounts in weighted categories after the application of credit risk mitigation techniques.
- Note 4: Regarding assets to which the Company applied transitional arrangements, the Company records these assets in risk-weighted categories in case of that transitional arrangements are not applied.
- Note 5: Investment trusts and other funds are recorded in investment trust, etc. The weighted average of risk weights was 80.48% as of March 31, 2018 (compares with 71.43% as of March 31, 2017)

# 4. Credit risk mitigation methods

Exposure amount to which credit risk mitigation methods are applied

16	2018 (As of M	arch 31, 2018)	2017 (As of March 31, 2017)		
Item	Exposure amount	Composition ratio	Exposure amount	Composition ratio	
Eligible financial collateral	¥ 27,488,378	89.53%	¥ 36,923,897	90.99%	
Guarantees and credit derivatives	3,213,299	10.47%	3,655,089	9.01%	
Total	¥ 30,701,677	100.00%	¥ 40,578,986	100.00%	

- Note 1: Japan Post Bank accepts cash, self-deposits and securities as eligible financial collateral.
- Note 2: Principal guarantors are central governments, etc. to which lower risk weight than the guaranteed obligations are applied.
- Note 3: Credit derivative counterparties are the financial institutions to which lower risk weightings than the reference obligations are applied.
- Note 4: The exposure included in Investment trusts and other funds are not included herein.

- 5. Derivative transactions and long-term settlements transactions
- (1) Derivative transactions and long-term settlements transactions

(Millions of yen)

ltem	2018 (As of March 31, 2018)	2017 (As of March 31, 2017)

Note: Shares with market quotations of affiliated companies are listed.

9. Exposures calculated by credit risk asset supervisory formulae Not applicable, since the standardized approach is used.

# 10. Interest rate risk

Gains and losses related to interest rate shock or changes in economic value used for management purposes in the Group for managing interest rate risk in the banking account

	2018	2017
	(As of March 31, 2018)	(As of March 31, 2017)
Losses in economic value	¥ 998.0	¥ 961.8

- Note 1: Interest rate shock range uses 1st and 99th percentiles for interest rate fluctuations based on a holding period of one year and an observation period of five years.

  Note 2: Of liquid deposits, for those deposits that will not be withdrawn and will remain at the Bank over the long term (so-called core deposits), the Group uses an internal model for estimating outstanding balances and allocation to settlement dates and calculates interest risk volume.
- Note 3: Assets other than those of Japan Post Bank are insignificant and therefore non-consolidated figures for Japan Post Bank are listed.

# Compensation, etc. Subject to Disclosure

- 1. Matters concerning the establishment of an organizational system for subject executives and employees of the Company (Group)
  - (1) Scope of subject executives and employees

The following describes the scope of "subject executives" and "subject employees" (collectively referred to as "subject executives and employees") who are subject to disclosure as persons having a significant impact on the operation of the banking business and state of assets as prescribed by the notification (Japan Financial Services Agency Notification No. 21 of March 29, 2012) for deciding matters determined separately by the Commissioner of the Financial Services Agency as an item concerning compensation based on provisions of the Ordinance for Enforcement of the Banking Act, Article 19-2, Paragraph 1-6.

- Scope of "subject executives"
   Subject executives are the Company's directors and executive officers.
   Outside directors are excluded.
- 2) Scope of "subject employees"

Among Company executives (other than subject executives) and employees as well as executives and employees of subsidiaries, those "persons receiving high amounts of compensation" and who have a significant impact on the management of business operations and the state of assets of the Company or its principal subsidiaries are deemed "subject employees" who are subject to disclosure.

(a) Scope of "principal consolidated subsidiaries" Principal consolidated subsidiaries are consolidated subsidiaries that have a significant impact on Group management. Specifically, the three business subsidiaries are in this category.

(b) Scope of "persons receiving high amounts of compensation"

"Persons receiving high amounts of compensation" are those persons receiving compensation exceeding standard amounts from the Company and its principal consolidated subsidiaries. The Company has set the Group standard amount at ¥24 million. The relevant standard amount is set based on the average basic compensation (excludes persons who assume positions or retire from positions during the term in each fiscal year) for the past three years for executives of the Company and Japan Post Bank and this serves as a common standard amount for the Group. However, because there are no large differences in compensation systems and levels for the Company's principal consolidated subsidiaries, these are also applied in common at principal consolidated subsidiaries.

(c) Scope of "persons having a significant impact on the management of the Group's business or the state of its assets"

"Persons having a significant impact on the management of the Group's business or the state of its assets" refers to persons who engage in regular business transactions and manage matters that have a considerably significant impact on the management of the Company, Japan Post Group and its principal consolidated subsidiaries, or persons who would exert a significant impact on the state of assets by incurring losses from business transactions or other matters. Specifically, this refers to executives of principal consolidated subsidiaries or executive officers with authority to execute the business of business departments in accordance with resolutions by the Board of Directors as well as to professional positions at Japan Post Bank, (Referred to hereafter as management employees for whom a performance-linked compensation system is anplicable based on professional position salary regulations and who perform duties for the execution of business using especially sophisticated and expert knowledge in the Investment Division of Japan Post Bank).

- (2) Determination of compensation for subject executives and employees
  - 1) Determination of compensation for subject executives

The Company has established the Compensation Committee as the body for determining the details of the compensation system and compensation for executives. The Compensation Committee determines policies for deciding details of compensation for the Company's directors and executive officers as well as details of individual compensation. In accordance with the Companies Act, the Compensation Committee is composed of a majority of outside directors. The Committee is independent of the business promotion department and has the authority to decide policies for determining compensation as well as determine individual compensation.

2) Determination of compensation for subject employees

The determination of compensation for executives of principal

consolidated subsidiaries who are deemed subject employees is as follows.

#### (a) Japan Post

Executive compensation is determined under a structure whereby the total amount of executive compensation is determined at the Shareholders' meeting.

Individual allocation of directors' compensation is determined on a resolution by the Board of Directors, according to the total amount decided at the Shareholders' meeting.

Individual allocation of compensation for auditors is determined based on consultation by the auditors.

Compensation for executive officers is determined based on a resolution by the Board of Directors.

(b) Japan Post Bank and Japan Post Insurance

Japan Post Bank and Japan Post Insurance have respectively established a Compensation Committee as the body for determining the details of the compensation system and compensation for executives. The Compensation Committee determines policies for deciding details of compensation for each company's directors and executive officers as well as details of individual compensation. In accordance with the Companies Act, the Compensation Committee is composed of a majority of outside directors. The Committee is independent of the business promotion department and has the authority to determine policies for determining compensation as well as determine individual compensation.

The Human Resources Division, which is independent from the Corporate Administration Division, has established a performance-linked compensation system based on professional position salary regulations for professional positions at Japan Post Bank. Compensation based on this system is determined after deliberation at the Evaluation Committee that is composed of executive officers such as the President and Representative Executive Officer of Japan Post Bank.

(3) Determination of compensation for staff of the Risk Management Department and Compliance Department

Compensation for staff of the Risk Management Department and Compliance Department is determined based on salary rules and regulations. Specific amounts paid are decided by determining compensation separate from the sales promotion department by setting amounts based on employee performance evaluations, with the general manager of the relevant departments as the person making final decisions.

Assessment categories of employee performance evaluations encompass assessments of the execution of duties and attainment levels for targets for each job responsibility in the Risk Management Department and Compliance Department. These assessments reflect the level of contribution to the risk management structure and compliance readiness.

(4) Total amount of compensation paid to members of the Compensation Committee and number of times the Compensation Committee and other meetings convened

Company name	Name of meeting	Number of times convened (From April 2017 to March 2018)
Japan Post Holdings	Compensation Committee	4 times
	Shareholders' meeting	1 time
Japan Post	Board of Directors	2 times
Japan Tost	Board of Corporate Auditors	1 time
Japan Post Bank	Compensation Committee	2 times
	Evaluation Committee	9 times
Japan Post Insurance	Compensation Committee	4 times

Note: The total amount of compensation is not listed because this amount cannot be calculated separating only the portion corresponding to compensation for the execution of duties of the Compensation Committee.

Matters concerning evaluation of the appropriateness of the design and operation of the compensation system for subject executives and employees of the Company (Group)

- (1) Policies concerning compensation for "subject executives"
  - The Company determines compensation for the Company's directors according to job responsibilities based on the scope and size of responsibilities for management and other areas. For executive officers, the Company has designed a compensation system that considers job content as an executive officer, personal evaluations and job performance. As a specific executive compensation system, compensation for executives consists of base compensation.
- (2) Policies concerning compensation for "subject employees"

In determining compensation for Company employees, the Company determines compensation for directors and auditors according to job responsibilities based on the scope and size of responsibilities for management and in other areas. For executive officers and executives, the Company has designed a compensation system that considers job content as an executive officer or executive, personal evaluations and job performance. As a specific compensation system, compensation consists of base compensation.

The Company determines compensation for employees based on employee evaluations to reflect the degree of attainment of targets and job behavior. As a specific compensation system for employees, compensation is determined based on salary rules and regulations.

Matters concerning consistency between the compensation system for subject executives and employees of the Company (Group) and risk management and the link between compensation and performance

In determining compensation for subject executives, the Compensation Committee decides on policies concerning the determination of details of compensation, after which details of compensation for each individual are determined.

In determining compensation for subject employees, compensation for directors and auditors of Japan Post is determined based on resolutions at the Shareholders' meeting, while compensation for executive officers is determined based on resolutions by the Board of Directors. Regarding executives of Japan Post Bank and Japan Post Insurance, the Compensation Committee decides on policies concerning the determination of details of compensation, after which details of compensation for each individual are determined. In determining compensation for professional positions at Japan Post Bank, the scheme for determining compensation is discussed at the Evaluation Committee, after which details of compensation for each individual are determined. Compensation for other employees is determined based on salary rules and regulations.

Compensation for subject executives and subject employees takes into consideration the state of employee evaluations and the appropriateness of amounts paid without excessive emphasis on performance based systems.

4. Matters concerning the types of compensation for subject executives and employees of the Company (Group), total amount paid and payment method Total amount of compensation for subject executives and employees (From April 1, 2017 to March 31, 20187)

				Total amo	unt of compensation (N	Nillions of yen)		
Classification	Number of persons		Total fixed compensation				Total variable compensation	
	persons			Base compensation	Stock compensation	Other		Bonuses
Subject executives (excluding outside executives)	43	1,118	1,118	894	223	0	0	0
Subject employees, etc.	75	2,917	2,576	2,058	517	0	340	340

- Note 1: Compensation for subject executives is listed including compensation as executives of principal consolidated subsidiaries.
- Note 2: Stock-compensation type stock options are not applicable.
- Note 3: The retirement benefits system for directors, auditors, executive officers and executives was discontinued in June 2013 and therefore retirement benefits are not applicable.
- 5. Other special pertinent matters for reference or other applicable matters other than those specified up to the previous item concerning the systems for compensation for subject executives and employees of the Company (Group)

There are no applicable matters besides those specifically listed in the previous items.
